RE: Summary of Quarterly Audit of SMPD 'End-User' ALPR Data for Q1, 2020

Introduction

Per SMPD Standard Operating Procedure 205, our Department conducts quarterly audits of our 'End-User' data to ensure our employees are reviewing data in a manner consistent with policy and procedure. The data reviewed is generated and provided by the Norther California Regional Intelligence Center (NCRIC), as they are the keeper of this data. The results of these audits are summarized and presented to the Support Services Captain for review and later for retention by the Support Services Division.

Quarter 1, 2020 (January, February, and March)

Our employees conducted 48 searches of ALPR historical data through the NCRIC platform. 100% of the searches were determined to list the required criteria as required by our policy and procedure. The high majority, 90%, of these searches were related to criminal investigations (refer to chart below).

Audit Focus	Q3/2019
Number of searches	48
Number of searches with required criteria	48
Case numbers listed	44
Non-case numbers listed	4
Reasons for search	N/A
