RE: Summary of Quarterly Audit of SMPD 'End-User' ALPR Data for Q2, 2020

Introduction

Per SMPD Standard Operating Procedure 205, our Department conducts quarterly audits of our 'End-User' data to ensure our employees are reviewing data in a manner consistent with policy and procedure. The data reviewed is generated and provided by the Norther California Regional Intelligence Center (NCRIC), as they are the keeper of this data. The results of these audits are summarized and presented to the Support Services Captain for review and later for retention by the Support Services Division.

Quarter 2, 2020 (April, May, June)

Our employees conducted 47 searches of ALPR historical data through the NCRIC platform. 100% of the searches were determined to list the required criteria as required by our policy and procedure. The top two reasons for searches were "Criminal or Arrest" or "Violent Crime."

Audit Focus	Q2/2020	Quarterly Average
Number of searches	47	70.75
Number of searches with required criteria (as %)	100%	99%
Case numbers listed	40	58.25
