RE: Summary of Quarterly Audit of SMPD 'End-User' ALPR Data for Q3, 2019

Introduction

Per SMPD Standard Operating Procedure 205, our Department conducts quarterly audits of our 'End-User' data to ensure our employees are reviewing data in a manner consistent with policy and procedure. The data reviewed is generated and provided by the Norther California Regional Intelligence Center (NCRIC), as they are the keeper of this data. The results of these audits are summarized and presented to the Support Services Captain for review and later for retention by the Support Services Division.

Quarter 3, 2019 (July, August, and September)

Our employees conducted 122 searches of ALPR historical data through the NCRIC platform. 100% of the searches were determined to list the required criteria as required by our policy and procedure. The high majority, 71%, of these searches were related to a criminal or arrest-related reason (refer to chart below).

Audit Focus	Q3/2019
Number of searches	122
Number of searches with required criteria	122
Case numbers listed	91
Non-case numbers listed	31
Reasons for search	N/A
Amber/Silver Alert	8
Criminal or Arrest	85
Special Event	0
Stolen or Wanted	14
Violent Crime	12
Exports	3

Analysis and Conclusion

Our Department 'End-User' activity during the time period was consistent with Department policy and procedure. No additional efforts are recommended.
