RE: Summary of Quarterly Audit of SMPD 'End-User' ALPR Data for Q4, 2019

Introduction

Per SMPD Standard Operating Procedure 205, our Department conducts quarterly audits of our 'End-User' data to ensure our employees are reviewing data in a manner consistent with policy and procedure. The data reviewed is generated and provided by the Northern California Regional Intelligence Center (NCRIC), as they are the keeper of this data. The results of these audits are summarized and presented to the Support Services Captain for review and later for retention by the Support Services Division.

Quarter 4, 2019 (October, November, and December)

Our employees conducted 66 searches of ALPR historical data through the NCRIC platform, which was 46% fewer than Quarter 3, 2019. All Quarter 4 searches were determined to list the required criteria of case number and justification for the search. The high majority, 86%, of these searches were related to a criminal or arrest-related reason (refer to chart below).

Audit Focus	Q4/2019
Number of searches	66
Number of searches with required criteria	66
Case numbers listed	58
Non-case numbers listed	8
Reasons for search	N/A
Amber/Silver Alert	0
Criminal or Arrest	57
Special Event	0
Stolen or Wanted	8
Violent Crime	1

Analysis and Conclusion

Our Department 'End-User' activity during the time period was consistent with Department policy and procedure. No additional efforts are recommended.
