Subject: RE: Daly City Police Department - Invoice #2 - BSCC 1150-23

Greetings Judy,

Thank you, we have received Invoice 2 for ORT 23 Daly City PD 1150-23. After reviewing Invoice 2, there are some corrections that will need to be completed before it can be submitted for final review. Please see my suggestions below:

SALARIES & BENEFITS:
Top Pay Rate for Officers. The budget narrative shows the top hourly rate for Officers as $122hr; however, Invoice 2 has an Officer listed at $125.712 which exceeds the top hourly rate. The expenditures in the budget narrative includes the max amount the grant will reimburse for. You can always claim less than the stated pay range, you just can't claim more. To expense for more than the top hourly pay rate, a budget modification will need to be completed first. However to move forward with payment, you could also exclude the officer that exceeds the top rate from Invoice 2, do a budget mod, and then include the officer on Invoice 3 after the budget mod has been approved. Let me know what you would prefer.

PROFESSIONAL SERVICES:
Condense expenditures into totals only. Since San Bruno PD and San Mateo PD don't provide Daly City PD with functional timesheets and both send invoices to Daly City PD for payment, you don't have to list out all the individuals employees hours and rates in the Professional Services expenditures description cell. Please condense down the expenditures and include only a total for San Mateo PD, a total for San Bruno PD, and an overall total for both. This will streamline the invoice and avoid potential budget mods. See example below:
San Bruno PD $33,261, San Mateo PD $49,942, Total = $83,203

Equipment/Fixed Assets:
Message Board Trailer . Please list expenditure as ALPR Trailer or ALPR Message Board Trailer, or something similar with ALPR in the title to help better align with budget narrative line-item, ALPR Trailer. Please check the total for the Trailer Hitch Mount since the amount was $10 off. Also please add all the totals for the trailer and hitch mount together and provide one overall total to better align with the budget narrative line-item, ALPR Trailer. See example below:
#1, #2 = One (1) ALPR Message Board Trailer: $16,831.63

Automatic License Plate Readers . Are both the expenditures listed below associated with budget narrative line-item, Automatic License Plate Readers?

#3 - (Various) Flock Safety ALPR: $159,750
#4 - (Various) Flock Safety Licenses: $73,500

If so, please combine them together to better align with budget narrative line-item, Automatic License Plate Readers since “Flock Safety Licenses” are not specifically mentioned in the budget. See example below:
#3,#4 - (Various) Flock Safety ALPR: $233,250
OR
#3 - (Various) Flock Safety ALPR: $159,750
#4 - (Various) Flock Safety ALPR: $73,500

Please let me know if you have any questions or need further clarification.

Have a nice day!

Subject: Daly City Police Department - Invoice #2 - BSCC 1150-23

Hello,
We have completed our Invoice #2 and documentation packet. They are both in the OneDrive folder and is ready for BSCC review. Please advise if anything else is needed. Have a wonderful day!

Best Regards,
Judy
