**Hotlist Policy**

> Hotlist hits are required to be human verified prior to action.

**Public Search Audit**

Download to view searches performed over the last 30 days.

Download CSV

SOC 2

**SOC 2 Type II**

Independently audited controls covering security, availability, and confidentiality.

ISO 27001

**ISO 27001**

Information security management aligned with international standards.

**Adherence to Key Privacy Principles**

Built to focus on data minimization, purpose limitation, and transparency.

## Myth vs. Fact

Myth

Flock has been hacked.

Fact

Flock's cloud environment has never been breached. Flock invests in a strong security posture, including adhering to NDAA, SOC2 (Type II), ISO 27001, ISO 27018 FedRAMP 20x, and Higher Education Community Vendor Assessment Tool (HECVAT) compliance. Additional security precautions include Role-Based Access Controls, data encrypted at-rest and in transit, required Multi-Factor Authentication, and regular penetration testing.

Myth

Flock sells and/or shares customer data.

Fact

Your community owns 100% of your data and it will never be sold. Only your agency decides who to share your data with, not Flock. Flock Safety does not publicly release agency search data. Flock does not operate or support any public-facing searchable database of law enforcement lookups, and we do not provide license plate search histories to websites or third parties without the agency's knowledge and authorization. Other agencies who you share footage with have been responding to FOIA requests and sharing this search data.

Myth

My data is fed into a national database.

Fact

Each agency controls access to its own data. Agencies may choose to share information through a broader network, but nothing is shared automatically. Participation is opt-in, governed by defined agreements, and limited to lawful investigative purposes.

Myth

Flock cameras use facial recognition.

Fact

Flock cameras do not use facial recognition technology. Searches are based on vehicle characteristics, and not identity. Flock cannot recognize, identify, or track individuals. It is purpose built for specific public safety investigations, not to monitor people.
