Featured Success Story

The Reedley Police Department, with the assistance of our local FLOCK LPR System, were able to quickly identify a vehicle within an hour that was involved in a fatal hit & run collision, that claimed the lives of two elderly pedestrians. Without the data provided from our License Plate Reader cameras (LPRs), it would have taken much longer to identify the vehicle involved. As a result of the vehicle identification, Investigators were able to make an arrest in this case within 3 days, for charges of Hit & Run Causing Death, and Felony Manslaughter.

share your data with, not Flock. Flock Safety does not publicly release agency search data. Flock does not operate or support any public-facing searchable database of law enforcement lookups, and we do not provide license plate search histories to websites or third parties without the agency's knowledge and authorization. Other agencies who you share footage with have been responding to FOIA requests and sharing this search data.

Myth

My data is fed into a national database.

Fact

Each agency controls access to its own data. Agencies may choose to share information through a broader network, but nothing is shared automatically. Participation is opt-in, governed by defined agreements, and limited to lawful investigative purposes.

Myth

Flock cameras use facial recognition.

Fact

Flock cameras do not use facial recognition technology. Searches are based on vehicle characteristics, and not identity. Flock cannot recognize, identify, or track individuals. It is purpose built for specific public safety investigations, not to monitor people.
