PART OF THE ALPR COUNCIL AND COMMUNITY ENGAGEMENT TOOLKIT

Council Readiness Checklist

This checklist helps you confirm your governance decisions are made, your preparation is complete and the documents behind them are gathered. It is a final readiness check, not a maturity rating, and it does not cover every governance choice.

Broader policy choices belong in the agency's written policy and legal review process. If any item is unresolved, settle it before a council hearing, briefing or community discussion.

Governance Decisions

Done	Step
☐	Applicable state and local law reviewed, including any state automated license plate recognition (ALPR) statute, and compliance position confirmed
☐	Surveillance use policy or local technology approval process completed, if required
☐	Authorized uses defined: what the system may and may not be used for
☐	Offense category configuration completed, reflecting authorized uses
☐	ALPR detection data retention periods configured for system enforcement, with evidence retention rules confirmed for preserved detections
☐	Sharing configuration decided (off or specific approved relationships) and who can enable or change it
