Good evening Lt. Casazza and Lt. Riccardi,

I was informed that Chief Barberini reached out to Tierney and Deanna today requesting that Axon finalize the agreement/proposal discussed in our previous meetings for Outpost fixed ALPR, in preparation for the upcoming Council meeting.

I've attached the information Kelly provided prior to her paternity leave, along with an additional file that includes notes from our project team. To ensure we align with your current deployment, I'd like to schedule a brief virtual meeting to confirm the exact number of ALPR cameras currently in use so the proposal accurately reflects the existing footprint.

As discussed, Outpost includes livestream and recall capabilities and can reliably capture three lanes or more, which will provide additional coverage compared to your current setup. Our goal is to ensure the proposal reflects both no additional budget impact over the next 24 months and long-term cost savings for the City of San Mateo, along with the added functionality enhancements.

Apologies for the late email, but please let me know if you have a 30min window available tomorrow or Wednesday, April 15. My availability is fairly flexible tomorrow, April 14, between 8:30am–12:30 pst and

1:00 2:30pm pst, and I'm available most of the day on Wednesday aside from 1pm and 3pm pst. Please let me know if there is a time that works and we'll follow up with a calendar/zoom invite.

Thank you both for your time and help.

Hi Kelly and Steve, thanks again for the questions yesterday, and we appreciate you both attending our presentation.

If possible, it would be helpful to obtain the current locations of your Flock Falcon ALPR cameras (including direction of capture), as well as any Condor livestream units that are either installed or being considered for deployment. Ideally, we'd like our project team to review the sites to assess feasibility and confirm we can expedite permitting/implementation. You should be able to export locations under the device tab in your Flock UI, or screen shot is fine if easier.

Have a great day,

Patrick Newton

Subject: ALPR

Hi Kelly,

Great seeing you yesterday - sounds like we will be back onsite on Thurs next week with you all to discuss ALPR in further detail at Chief's direction.

Can we work with you to do some scoping prior to that meeting so we can be well prepared?

I have Patrick copied here so he can either send over some questions or he will coordinate a call with you if that's easier!

Thank you,
Tierney
