San Mateo PD
Lt. Riccardi, Lt. Casazza,

Nice to meet you both. Now that your count's confirmed at 45 outposts, let's work on choosing locations and designing your sites so we can get ahead on permitting, improving the deployment timeline.

Attached is the link to your Site Selection Template - please fill it out with your proposed locations, with as much detail as you can for each site: **Intersection/GPS coordinates, direction of capture, pole ownership/type, and power preference (solar or AC)**. The Outpost Site Selection Guide is attached for placement reference.

Also, please let me know any other details around this deployment - are we replacing existing cameras, or are these all new locations?

Once I have your list, I'll validate the design of each placement - if anything's not feasible, I'll send back alternatives for review. Happy to hop on a call to discuss sites, but the first step is identifying placements.

Looking forward to working with you on this. Let me know if you have any questions.

Regards,

Ryan Wells
Professional Services Manager, ALPR

Sounds great, 40 paid cameras & 5 free donor cameras, up to you how you use the 5!
