

Las Vegas Metro Police Department - NV Transparency Portal

Last updated: Sun May 31 2026

OVERVIEW

Las Vegas Metro Police Department uses Flock Safety technology to capture objective evidence without compromising on individual privacy. Las Vegas Metro Police Department utilizes retroactive search to solve crimes after they've occurred. Additionally, Las Vegas Metro Police Department utilizes real time alerting of hotlist vehicles to capture wanted criminals. In an effort to ensure proper usage and guardrails are in place, they have made the below policies and usage statistics available to the public.

POLICIES

What's Detected

License Plates, Vehicles

What's Not Detected

ALPR systems used by the Department capture images of license plates only and do not perform facial recognition or identify individuals or personal characteristics (e.g., race, gender, or other protected traits).

Acceptable Use Policy

All information captured, stored, generated, or otherwise produced by department-owned ALPR cameras is the property of LVMPD, regardless of where the information is housed or stored. LVMPD will not confirm nor deny the existence of ALPR information to any individual or agency that would not be authorized to receive the information unless otherwise required by law.

Prohibited Uses

Department members will not seek, submit, or retain license plate reader information about individuals, or an organization based solely on their religious beliefs, political affiliation, social views, activities, race, ethnicity, citizenship, place of origin, age, disability, gender, gender identity, sexual orientation, or other classification protected by law.

Access Policy

All deployments of the ALPR system are for official use only. Queries and dissemination of ALPR data are permitted only if the query is relevant to a criminal investigation and the requester has a legitimate need.

USAGE

Data Retention

The number of days data is retained.

90 days

Number of Flock LPR Cameras

Number of LPR cameras only.

211

Organizations granted access to LVMPD data:

Access to or disclosure of ALPR data will only be provided to individuals within the department or other authorized governmental agencies.

Hotlists Alerted On

National and statewide hotlist sources.

NCIC

Vehicles detected in the last 30 days

Number of unique plate reads over the last 30 days.

2,203,737

Number of Hotlist Hits

Total hotlist hits over the last 30 days.

16,854

Number of Searches

Total user search sessions over the last 30 days.

4,034

Hotlist Policy

Proactive manual entry of ALPR hot plates/hot lists is permitted with license plate information (e.g., BOLO or AMBER alerts) for authorized purposes. Hot plates will not be set as active for a period longer than 15 days. Re-entry of a hot plate is permitted if it continues to meet the standards for hot plate creation. Upon receipt of an ALPR hot plate alert, members will make every reasonable effort to ensure both the accuracy and validity of a hot plate hit prior to taking law enforcement action.
