Subject: California Public Records Request :: W012818-053026

Body:

RE: PUBLIC RECORDS REQUEST of May 30, 2026, **Reference # W012818-053026**

Dear Brian C,

The City received the following records request from you on May 30, 2026.

Time sensitivity: I have a meeting with Chief Barberini on June 4, and these records would help make that meeting more productive. If the request can be produced before then, I would greatly appreciate it — having the data in advance means our meeting time can go to discussing the records rather than to collecting them. I expect this to be straightforward to fulfill for the reasons below.

Under the California Public Records Act (Gov. Code § 7920.000 et seq.), I request a copy of the Department's Automated License Plate Reader (ALPR) search audit records for the period April 1, 2026 through the present (the date this request is processed) — that is, the per-search audit log entries the Department's Flock system generates, covering every search run during that period.

I recognize that this period partially overlaps with the monthly ALPR search audit logs the Department is already producing on a rolling basis under my separate, ongoing request. I am submitting this as a new request, rather than asking to update that one, because its rolling coverage does not span this entire period and because the most recent two months are time-sensitive in light of the June 4 meeting — I would like them in advance of the regular monthly production. I am not asking the Department to duplicate work it has already completed; to the extent any of this period has already been produced, this request is directed at the remainder.

As you are aware, the Department recently enabled the public search audit on its Flock transparency page, which I appreciate. Because that page is a live display that changes over time rather than a fixed export, I am requesting a produced copy of the records for the period above so that I have a complete, fixed, and authentic copy to review and discuss at the June 4 meeting.

So that the production is complete and consistent with the Department's prior practice, I ask that the records be provided in the same exported form in which the Department previously produced ALPR search audit records (for example, in response to W012541) — and, if available, in electronic, machine-readable form such as the CSV the system generates — including all data fields contained in that export.

If any part of this request is unclear or you believe it is overbroad, please contact me and I will gladly clarify or narrow it rather than have it delayed. Given that the Department has already made this category of record public, I am hopeful it can be produced quickly, and ideally before June 4.

Thank you for your time and assistance.

Brian

We have made a good faith and diligent effort to complete your request, in which responsive records have been collected. These records are available on the San Mateo Records Request Portal. Select the link below to view.

The City has completed its response to your request and now considers this record request **W012818-053026** closed.

If you have any questions, please contact me using the below contact information.

Sincerely,
