License plate reader helps catch theft suspects in Redwood City

Bay City News

Mar 11, 2026

Two San Jose men were arrested Tuesday after Redwood City officers used automated license plate reader technology to track a vehicle linked to a January theft of more than \$4,000 in merchandise from a motorcycle store, police said.

The theft occurred Jan. 29 at the Cycle Gear store at 2426 El Camino Real, according to the Redwood City Police Department. Investigators said two suspects entered the store, grabbed multiple clothing items, and quickly left without paying before driving away in a red Subaru Impreza.
