REQUEST FOR COUNCIL ACTION

To: Cloquet City Council
From: Derek Randall, Chief of Police
Reviewed/Approved By: Tim Peterson, City Administrator *TP*
Date: February 17, 2026

ITEM DESCRIPTION: Purchase of Axon Draft One AI-Assisted Report Writing Software

Proposed Action

The Cloquet Police Department requests authorization to purchase Axon Draft One AI-assisted report writing software at a total cost of \$64,938.06 over a 34-month contract period (approximately \$21,646.02 annually).

Background/Overview

Report writing is one of the most time-consuming aspects of modern policing. Officers frequently spend hours documenting incidents, resulting in significant overtime costs and delays in report completion. The Cloquet Police Department has been piloting Axon's Draft One software for the past two months to evaluate whether artificial intelligence-assisted report writing could improve efficiency, accuracy, and thoroughness while reducing costs. Draft One is an AI-powered tool that helps officers generate comprehensive police reports from body-worn camera audio, interview recordings, and other documentation. The system incorporates multiple accuracy checkpoints and safeguards to ensure reports meet professional standards while maintaining officer control over the final product.

Discussion

The use of AI to assist with report generation is becoming increasingly common in law enforcement. Our colleagues at the Duluth Police Department in our Sixth Judicial District have implemented similar technology with positive results. Additionally, the Carlton County Sheriff's Office is evaluating AI solutions to improve report writing, signaling a regional trend toward this technology. During our two-month trial period, Draft One has demonstrated significant benefits:

TIME SAVINGS AND COST REDUCTION:

Officers have reported substantial time savings, particularly on complex cases. One patrol officer noted: "Personally found Draft One useful. It has saved me time and saved the department from paying me overtime. After taking a burglary report, I returned to the office around 5:00 p.m. and had a lengthy report to write. Draft One completed the report in great detail, as good as, or better than, my report would have been. What would have likely been a couple of hours of overtime ended up being me leaving on time, thanks to Draft One."

The same officer added, "As I have used it more, I have gotten better at articulating the information I want to include when writing the report, but it might not otherwise be captured. I have also learned how to add additional

details prior to Draft One generating the report to get the most complete information in the report with minimal edits." This time savings directly supports the department's existing reporting requirements under Policy 322, which requires officers to complete and submit all reports before going off-duty unless they obtain supervisory approval. Draft One enables officers to meet this requirement more consistently while maintaining report quality.

INVESTIGATIVE EFFICIENCY:

The benefits extend beyond patrol operations. A detective reported: "I know that back here it has and would save hours and hours of report writing. It is a great tool for forensic interview reports."

IMPROVED DOCUMENTATION QUALITY:

Many events are now more thoroughly documented in reports, whereas in the past they might have received only a sentence or two with a disposition. This enhanced documentation improves case outcomes, provides better records for prosecution, and increases accountability.

Draft One helps officers meet the Policy 322 requirement that reports document "sufficient information to refresh the employee's memory and to provide sufficient information for follow-up investigation and successful prosecution." The AI assistance ensures comprehensive documentation of all pertinent information while maintaining the accuracy and integrity standards required by department policy.

ACCURACY AND SAFEGUARDS:

Draft One incorporates multiple stop-checks to ensure accuracy and compliance with Policy 322's requirement that reports "accurately reflect the person's identity, all pertinent information seen, heard, or assimilated by any other sense, and any actions taken":

- Officers review and edit all AI-generated content before approval
- The system requires officer verification of facts and details
- Supervisors maintain their review and approval responsibilities per Policy 322.4
- Officers retain full control and responsibility for report content, ensuring compliance with Policy 322's prohibition against suppressing, concealing, or distorting facts
- The technology serves as an assistive tool only—officers cannot delegate their reporting responsibilities to the AI system

POLICY AND LEGAL COMPLIANCE:

We have coordinated closely with the Carlton County Attorney's Office regarding the implementation of this technology. The department has established comprehensive policies and procedures governing Draft One usage that work in conjunction with existing department policies:

Policy 322 - Report Preparation:

This foundational policy establishes the department's standards and requirements for report preparation. Key provisions relevant to Draft One implementation include:

- Purpose and Standards: Reports must document "sufficient information to refresh the employee's memory and to provide sufficient information for follow-up investigation and successful prosecution." Draft One helps officers meet this standard by ensuring comprehensive documentation of all relevant details.

- Completion Requirements: Officers must complete and submit all reports before going off duty unless they obtain supervisory approval. Draft One directly supports this requirement by significantly reducing report writing time.
- Accuracy Requirements: "All forms and reports shall accurately reflect the persons' identity, all pertinent information seen, heard, or assimilated by any other sense, and any actions taken. Employees shall not suppress, conceal, or distort the facts of any reported incident, nor shall any employee make a false report orally or in writing." Draft One is used as an assistive tool while officers maintain full responsibility for accuracy and completeness.
- Supervisor Review: Policy 322.4 requires supervisors to review reports for content and accuracy. This review process remains unchanged with Draft One—supervisors continue to review and approve all reports regardless of drafting method.
- Required Reporting: Policy 322.2 establishes what incidents require written documentation. Draft One helps ensure these reporting requirements are met consistently and thoroughly.

Policy 304 - Report Expectations (Procedures Manual):

This policy specifically addresses the use of Draft One and establishes clear standards for when comprehensive reports are required versus condensed reports. It ensures that:

- All felonies, in-custody cases, person crimes, missing person incidents, hate/bias crimes, deceased persons, cases meeting solvability thresholds, ERPOs, weapon violations, and incidents of significant public interest receive comprehensive documentation
- Officers may use Draft One and Axon Transcription to prepare reports, provided the final product meets department standards for comprehensive reporting
- Currently, Draft One alone is unlikely to produce a sufficiently detailed report for complex cases—officers must add details to ensure reports are both accurate and thorough
- Reports must remain accurate, clear, objective, complete, and professional regardless of drafting method
- Condensed reports using Draft One may be appropriate for property crimes without solvability factors and non-criminal matters, but must still accurately document the incident

Integration of Policies:

Together, Policy 322 and Procedure 304 create a comprehensive framework for Draft One implementation that:

- Maintains all existing accuracy, completeness, and integrity standards
- Provides clear guidance on when and how to use AI assistance
- Preserves officer accountability and supervisor oversight
- Ensures consistency with legal requirements and prosecutorial needs
- Supports the Carlton County Attorney's Office's case preparation requirements

FUNDING:

The total contract cost of \$64,938.06 over 34 months will be funded through:

1. Unallocated budget from four current patrol officer vacancies
2. Overtime savings generated by improved report-writing efficiency

The software is projected to significantly reduce overtime costs, making it largely self-funding. The time savings documented during our trial period indicate that overtime reductions will offset a substantial portion of the annual cost. By enabling officers to complete reports within their regular shifts (as required by Policy 322), we anticipate measurable reductions in report-writing overtime.

CONTRACT DETAILS:

- Vendor: Axon Enterprise, Inc.
- Quote Number: Q-801219-46064KP
- Products: Draft One AI-Assisted Report Writing (22 licenses) and Axon Auto-Transcribe Unlimited Service (22 licenses)
- Term: 34 months (March 15, 2026, through January 14, 2029)
- Annual Payment: \$21,646.02
- Payment Schedule: Annual payments in March 2026, March 2027, and March 2028
- Total Contract Value: \$64,938.06

RECOMMENDATION:

The Cloquet Police Department recommends approval of this purchase for the following reasons:

1. Demonstrated cost savings through reduced overtime
2. Improved report quality and thoroughness
3. Enhanced officer efficiency and productivity
4. Better compliance with Policy 322 requirement to complete reports before the end of the shift
5. Alignment with regional law enforcement trends (Duluth PD implementation, Carlton County SO evaluation)
6. Comprehensive safeguards ensuring accuracy and accountability
7. Successful two-month trial period with positive results from both patrol and investigations
8. Coordination with the Carlton County Attorney's Office
9. Established policies (322 and 304) providing a clear framework for appropriate use
10. Funding available through vacancy savings and overtime reduction

Standard Terms and Conditions

Axon Enterprise Inc. Sales Terms and Conditions

Axon Master Services and Purchasing Agreement:

This Quote is limited to and conditional upon your acceptance of the provisions set forth herein and Axon's Master Services and Purchasing Agreement (posted at <https://www.axon.com/sales-terms-and-conditions>), as well as the attached Statement of Work (SOW) for Axon Fleet and/or Axon Interview Room purchase, if applicable. In the event you and Axon have entered into a prior agreement to govern all future purchases, that agreement shall govern to the extent it includes the products and services being purchased and does not conflict with the Axon Customer Experience Improvement Program Appendix as described below.

ACEIP:

The Axon Customer Experience Improvement Program Appendix, which includes the sharing of de-identified segments of Agency Content with Axon to develop new products and improve your product experience (posted at www.axon.com/legal/sales-terms-and-conditions), is incorporated herein by reference. By signing below, you agree to the terms of the Axon Customer Experience Improvement Program.

Acceptance of Terms:

Any purchase order issued in response to this Quote is subject solely to the above referenced terms and conditions. By signing below, you represent that you are lawfully able to enter into contracts. If you are signing on behalf of an entity (including but not limited to the company, municipality, or government agency for whom you work), you represent to Axon that you have legal authority to bind that entity. If you do not have this authority, please do not sign this Quote.

Exceptions to Standard Terms and Conditions

Rewrite Estimates

Estimated Amounts and Contract Terminations. Any amounts stated as due under existing or terminated contracts — including contract transfer balances carried forward to new or pending contracts — are estimates based on payments received as of the calculation date. These estimates may be adjusted if new contracts are not executed on the anticipated dates or if expected payments are not made.

Refresh Shipment Timing

Technology Assurance Plan (TAP) Refresh Prior to Renewal. For Customers with expiring agreements that include TAP refresh rights, Axon may, in its discretion, ship refresh hardware under the existing contract while renewal or replacement agreements are in progress. Any such shipments will be deemed made under the terms of the existing contract until the new contract is fully executed, after which any applicable updates, fees, or adjustments will apply.

Shipment Timing

Shipment Variance. Estimated shipment dates are provided for planning purposes only and are not guarantees. Axon may ship hardware before or after the estimated shipment date, and failure to meet an estimated shipment date will not, by itself, constitute a breach, provided Axon uses commercially reasonable efforts to meet estimated shipment dates.

Report Preparation

322.1 PURPOSE AND SCOPE

Report preparation is a major part of each employee's job. The purpose of reports is to document sufficient information to refresh the employee's memory and to provide sufficient information for follow-up investigation and successful prosecution. Report writing is the subject of substantial formalized and on-the-job training.

322.1.1 REPORT PREPARATION

It is the responsibility of the assigned employee to complete and submit all reports taken during the shift before going off-duty unless permission to hold the report has been approved by a supervisor. Employees should ensure that their reports are sufficient for their purpose and reasonably free of errors before submission. Generally, reports requiring prompt follow-up action on active leads or arrest reports where the suspect remains in custody should not be held.

Officers must prepare handwritten forms and reports legibly. If the form or report is not legible, the submitting employee will be required by the reviewing supervisor to make corrections and resubmit the form or report promptly. Employees who dictate reports shall use appropriate grammar. Employees who generate forms or reports on computers are subject to all requirements of this policy.

All forms and reports shall accurately reflect the persons' identity, all pertinent information seen, heard, or assimilated by any other sense, and any actions taken. Employees shall not suppress, conceal or distort the facts of any reported incident, nor shall any employee make a false report orally or in writing. Generally, the reporting employee's opinions should not be included in reports unless specifically identified as such.

322.2 REQUIRED REPORTING

Written reports are required in all of the following situations on the appropriate Department-approved form unless otherwise approved by a supervisor.

322.2.1 CRIMINAL ACTIVITY

When a member responds to a call for service or, as a result of self-initiated activity, becomes aware of any activity where a crime has occurred, the member shall document the incident regardless of whether a victim desires prosecution.

Activity to be documented in a written report includes:

- (a) All arrests
- (b) All felony crimes
- (c) All incidents involving violations of crimes or ordinances motivated by bias (Minn. Stat. § 626.5531)
- (d) Non-felony incidents involving threats or stalking behavior
- (e) Situations covered by a separate policy. These include:

Cloquet Police Department

Policy Manual

Report Preparation

- (a) Use of Force Policy
- (b) Domestic Abuse Policy
- (c) Child Abuse Policy
- (d) Adult Abuse Policy
- (e) Hate or Prejudice Crimes Policy
- (f) Suspicious Activity Reports Policy
- (f) All misdemeanor crimes where the victim desires a report

Misdemeanor crimes where the victim does not desire a report shall be documented using the department-approved alternative reporting method (e.g., dispatch log).

322.2.2 NON-CRIMINAL ACTIVITY

The following incidents shall be documented using the appropriate approved report:

- (a) Any time an officer points a firearm at any person
- (b) Any use of force against any person by a member of this department (see the Use of Force Policy)
- (c) Any firearm discharge (see the Firearms Policy)
- (d) Any time a person is reported missing, regardless of jurisdiction (see the Missing Persons Policy)
- (e) Any found property or found evidence
- (f) Any traffic collisions above the minimum reporting level (see the Traffic Collisions Policy)
- (g) Suspicious incidents that may indicate a potential for crimes against children or that a child's safety is in jeopardy
- (h) All protective custody detentions
- (i) Suspicious incidents that may place the public or others at risk
- (j) Whenever the employee believes the circumstances should be documented or at the direction of a supervisor
- (k) Any watercraft collision or accident, drowning death and/or general water accident should be reported on the appropriate Department of Natural Resource Form (Minn. Stat. § 86B.105(a))

322.2.3 DEATH REPORTS

Reports shall be completed by the handling employee. All deaths shall be handled in compliance with the Death Investigations Policy.

Cloquet Police Department

Policy Manual

Report Preparation

322.2.4 INJURY OR DAMAGE BY CITY PERSONNEL

Reports shall be taken if an injury occurs that is a result of an act of a City employee. Additionally, reports shall be taken involving damage to City property or City equipment.

322.2.5 MISCELLANEOUS INJURIES

Any injury that is reported to this department shall require a report when:

- (a) The injury is a result of a drug overdose.
- (b) Attempted suicide.
- (c) The injury is major or serious, whereas death could result.
- (d) The circumstances surrounding the incident are suspicious in nature and it is desirable to record the event.

The above reporting requirements are not intended to be all-inclusive. A supervisor may direct an employee to document any incident he/she deems necessary.

322.2.6 ALTERNATE REPORTING FOR VICTIMS

Reports that may be submitted by the public via online or other self-completed reporting processes include:

- (a) Lost property.
- (b) Misdemeanor thefts of property, other than firearms or materials that threaten public safety, when there is no suspect information or serial number or ability to trace the item.
 - 1. Misdemeanor thefts of cellular telephones may be reported even though they have a serial number.
- (c) Misdemeanor vandalism with no suspect information and no hate crime implications.
- (d) Vehicle burglaries with no suspect information or evidence.
- (e) Stolen vehicle attempts with no suspect information or evidence.
- (f) Annoying telephone calls with no suspect information.
- (g) Identity theft without an identifiable suspect.
- (h) Online or email fraud solicitations without an identifiable suspect and if the financial loss classifies the crime as a misdemeanor.
- (i) Hit-and-run vehicle collisions with no suspect or suspect vehicle.
- (j) Supplemental property lists.

Members at the scene of one of the above incidents should not refer the reporting party to an alternate means of reporting without authorization from a supervisor. Members may refer victims to online victim assistance programs (e.g., Federal Communications Commission (FCC) website for identity theft, Internet Crime Complaint Center (IC3) website for computer crimes).

Cloquet Police Department

Policy Manual

Report Preparation

322.3 GENERAL POLICY OF EXPEDITIOUS REPORTING

In general, all employees and supervisors shall act with promptness and efficiency in the preparation and processing of all reports. An incomplete report, unorganized reports or reports delayed without supervisory approval are not acceptable. Reports shall be processed according to established priorities or according to special priority necessary under exceptional circumstances.

322.3.1 GENERAL POLICY OF HANDWRITTEN REPORTS

Some incidents and report forms lend themselves to block print rather than typing. In general, the narrative portion of those reports where an arrest is made or when there is a long narrative should be typed or dictated.

Supervisors may require, with the foregoing general policy in mind, block printing or typing of reports of any nature for Department consistency.

322.3.2 GENERAL USE OF OTHER HANDWRITTEN FORMS

County, state and federal agency forms may be block printed as appropriate. In general, the form itself may make the requirement for typing apparent.

322.4 REPORT CORRECTIONS

Supervisors shall review reports for content and accuracy. If a correction is necessary, the reviewing supervisor should reject (kick-back) the report in CentralSquare with the reasons for rejection. The original report and rejection notification should be conducted as soon as practicable. It shall be the responsibility of the originating employee to ensure that any report returned for correction is processed promptly.

322.5 REPORT CHANGES OR ALTERATIONS

Reports that have been approved by a supervisor and submitted to the Records Center for filing and distribution shall not be modified or altered except by way of a supplemental report. Reviewed reports that have not yet been submitted to the Records Center may be corrected or modified by the authoring employee only with the knowledge and authorization of the reviewing supervisor.

322.6 ELECTRONIC SIGNATURES

The Cloquet Police Department has established an electronic signature procedure for use by all employees of the Cloquet Police Department. The Patrol Division Commander shall be responsible for maintaining the electronic signature system, for ensuring that each employee creates a unique, confidential password for his/her electronic signature and that the use of electronic signatures otherwise complies with the law.

- Employees may only use their electronic signature for official reports or other official communications.
- Each employee shall be responsible for the security and use of his/her electronic signature and shall promptly notify a supervisor if the electronic signature has or may have been compromised or misused.

Cloquet Police Department

Policy Manual

Report Preparation

322.7 FIREARM INJURY REPORTING FROM HEALTH PROFESSIONALS

Members receiving a report from a health professional of a bullet or gunshot wound, powder burns or any other injury arising from, or caused by, the discharge of any gun, pistol or any other firearm shall thoroughly investigate the facts surrounding the incident (Minn. Stat. § 626.52, Subd. 2; Minn. Stat. § 626.553, Subd. 1).

The Records Center shall ensure that the report received from the health professional is forwarded to the commissioner of the Department of Health (Minn. Stat. § 626.53, Subd. 2). If the injury resulted from a hunting incident, the Records Center shall ensure that the findings of the investigation are forwarded to the commissioner of the Department of Natural Resources using the form provided by the commissioner (Minn. Stat. § 626.553, Subd. 1).

Report Expectations

304.1 DOCUMENTING INCIDENTS

The Cloquet Police Department expects officers to properly document incidents reported to the department. The police report serves as an essential document for legal proceedings, investigations, and departmental records. It should provide a clear, complete, and accurate account of the incident, enabling anyone who reads it to understand what occurred and the actions taken in response.

There are instances when a report needs to be comprehensive, and other times when a more condensed version is sufficient.

A comprehensive report includes:

- A detailed accounting of the officer's actions and observations
- A detailed account of victim/witness/suspect statements
- A detailed accounting of the scene and any evidence related to the incident

A comprehensive report should be:

- Accurate – all details should be correct and verified, witness/victim/suspect statements are accurately detailed
- Clear – easily understandable, well-organized, concise, and free of ambiguity
- Objective – factual and unbiased reporting
- Complete – elements of the crime and all relevant information should be included, leaving no significant gaps
- Professional – well organized, neatly formatted, and free from spelling or grammatical errors

CPD expects officers to complete comprehensive police reports on the following:

- All felonies
- In-custody cases
- Cases where a citation was issued - excluding traffic citations
- Person crimes
- Missing person incidents
- Crimes motivated by hate and/or bias
- Deceased person
- Cases that meet the solvability threshold for follow-up investigation – 5 or more points
- Extreme Risk Protection Orders (ERPO)
- Weapon violation incidents

Cloquet Police Department

Procedures Manual

Report Expectations

- Incidents of significant public interest or exceptional circumstances

In the cases mentioned above, officers may use Draft One and/or Axon Transcription to prepare their report, provided the final product is a comprehensive report. Currently, a Draft One report by itself is unlikely to be sufficient as a detailed report in these cases. Officers will need to add more details to ensure the report is both accurate and thorough.

There are instances when officers may complete a condensed report using Draft One. The reports must still accurately document the incident and provide sufficient detail to summarize it.

Situations that allow for condensed reports include:

- Property crime cases that will not be assigned for follow-up due to a lack of solvability factors
- Non-criminal matters
