Subject: Axon ALPR Product Updates
From: Kathleen Hunt <kahunt@axon.com>
To: Anthony Riccardi <ARiccardi@cityofsanmateo.org>; Stephan Casazza <casazza@cityofsanmateo.org>;
CC: Tierney Stuhr <tstuhr@axon.com>;

Hi Lt. Riccardi and Lt. Casazza,

My name is Kathleen Hunt, and I will be your new permanent Customer Success Manager starting in mid-October. Thank you for your patience during the transition! I'm excited to work with you and your team! While I finish onboarding over the next few weeks please continue to cc t1200csm@axon.com on any emails so we can ensure your questions are addressed promptly.

I'm reaching out about recent changes Axon has made to the ALPR experience for Fleet 3 LPR and Outpost/Lightpost:

1. **Search in Fusus:** We're encouraging customers to move all ALPR searching from Evidence.com to Fusus. If you'd like us to disable ALPR search in Evidence.com so all searching happens in Fusus, please let me know.
2. **New user guide:** We've made a number of updates to the ALPR platform.
3. **ALPR sharing:** You can now share ALPR data with other Axon LPR customers
4. Agencies can now edit the Overview and Policy statements of their Transparency Portal, giving you more control over how you explain your ALPR program and policies to your community.
    - In evidence.com, go to Admin Settings > Application Settings > ALPR Policy and Usage.
    - To enable the public version, go to Settings > toggle on Public Portal to "enabled."
    - Customize content by clicking "Edit Policy Statements" in the top right corner.
    - Changes can take up to 24 hours to appear on the public portal.

If you'd like to walk through any of this together, you can book time with our Sales Engineer, Rob Pennell, here: Book a Meeting. You will also receive a calendar invitation from me for a virtual ALPR session scheduled for October 13.

Thank you,

--

KATHLEEN HUNT
