Dear Brian C:

Caltrans received a public records request from you on November 09, 2026. You requested the following:

I request records from the Caltrans District 4 Encroachment Permits office concerning license plate reader cameras in the City of San Mateo, San Mateo County.

For January 1, 2020 through the date of the search:

1. Each encroachment permit application, in any status (including pending, withdrawn or denied), where the applicant, permittee or contractor is the City of San Mateo, the San Mateo Police Department, Flock Group Inc. (Flock Safety) or Axon Enterprise, Inc., for installing cameras, license plate readers, poles, solar panels or related equipment within the state highway right of way in the City of San Mateo, including State Route 82 (El Camino Real), State Route 92, and U.S. 101 and its ramps. This includes applications submitted through the Caltrans Encroachment Permit System (CEPS).

2. Each permit issued on those applications, with its location exhibits, plans, special provisions and riders.

3. Any inspection, completion or final records for those permits.

Electronic copies in the form held are fine. If a search by applicant is easier than a search by location, a list of the permit numbers issued to these four applicants for work in the City of San Mateo would help me narrow the request.

Your request was received and given the reference number R056064-110926 for tracking purposes. Your request is being processed in the order in which it was received.

Thank you.

Sincerely,

Caltrans
