

were injured. The suspect(s) and firearm(s) used in these incidents remain outstanding. In each of these incidents, the suspect was able to flee the area prior to the arrival of officers. Extensive searches were conducted, each with negative results. Detectives with the SRPD Violent Crimes Investigations teams, believing these incidents likely involved the same masked suspect, utilized vehicle data captured by fixed ALPR cameras near the locations of the gas stations. SRPD uses fixed Automated License Plate Reader (ALPR) cameras to help investigate serious crimes. These cameras capture license plates, vehicle descriptions, and time-and-location data, allowing detectives to quickly identify and track suspect vehicles involved in crimes such as robberies. Detectives located a grey Acura sedan that was in the area of each of the gas stations at times consistent with the robberies and attempted robberies. Using the license plate captured by the cameras, detectives were able to quickly associate Garza with the vehicle. Detectives located the vehicle at Garza’s residence in the 2200 block of Midway Drive. When Garza exited his residence and got into the vehicle, they noted he was of a similar physical build and dressed in similar clothing as the suspect in the investigations earlier in the morning. Detectives followed Garza as he drove away from the residence, and at approximately 9:15 a.m., two uniformed officers with the SRPD Downtown Enforcement Team conducted a traffic stop on Garza’s vehicle. Garza was detained without incident.

At approximately 1:30 p.m., detectives served a search warrant at Garza’s house on Midway Drive. During the search warrant, detectives located clothing consistent with each of the robberies, merchandise believed to have been stolen from one of the gas stations, and a pellet rifle.

As the investigation continued, detectives were able to connect Garza to an unsolved robbery in December 2025. On December 16, at approximately 9:00 p.m., Garza robbed the Valero gas station located at 1101 Yulupa Avenue. He was wearing dark clothing and a Halloween mask. No weapon was seen and no threats of a weapon were made. Garza fled the gas station with an undisclosed amount of cash.

Garza was booked into Sonoma County Jail for five counts of robbery per 211 PC. ALPR technology is a critical tool in reducing and solving violent crimes by providing real-time data that helps identify suspect vehicles and generate actionable leads within minutes. This capability not only accelerates investigations but also prevents dangerous encounters by allowing officers to intercept suspects before violence escalates. This innovation reflects SRPD’s commitment to leveraging technology for faster response times, smarter resource deployment, and violent crime reduction, ensuring a safer Santa Rosa.

Santa Rosa Police Department case numbers 25-13509, 26-312, 26-422, 26-473, 26-471.

Data & Usage Summary

Data Retention
The number of days data is retained.

30 days

Total Cameras
Number of LPR and other cameras.

142

Vehicles detected in the last 30 days
Number of unique plate reads over the last 30 days.

769,352

Number of Searches
Total user search sessions over the last 30 days.

761

Hotlists Alerted On

National and statewide hotlist sources.

California SVS, NCMEC Amber Alert

Number of Hotlist Hits

Total hotlist hits over the last 30 days.

46,646

Top Offense Types

Offense Types used for LPR searches in the last 30 days.

1. Motor Vehicle Theft/Stolen
2. Wanted Person (Arrest Warrant/Fugitive)
3. Larceny/Theft Offenses
4. Weapons Offense (Guns/Shots Fired)
5. Driving Under the Influence (DUI/DWI/OWI/OVI)

Policy & Trust

What's Detected

License Plates, Vehicles

What's Not Detected

Facial recognition, People, Gender, Race

Acceptable Use Policy

Data is used for law enforcement purposes only. Data is owned by Santa Rosa California Police Department and is never sold to 3rd parties.

Prohibited Uses

Immigration enforcement, harassment or intimidation, usage based solely on a protected class (i.e. race, sex, religion), Personal use.

Access Policy

All system access requires a valid reason and is stored indefinitely.

Hotlist Policy

Hotlist hits are required to be human verified prior to action.

Public Search Audit

Download to view searches performed over the last 30 days.

SOC 2 Type II

Independently audited controls covering security, availability, and confidentiality.

ISO 27001

Information security management aligned with international standards.

Adherence to Key Privacy Principles

Built to focus on data minimization, purpose limitation, and transparency.

Myth vs. Fact

Myth

Flock has been hacked.

Fact

Flock's cloud environment has never been breached. Flock invests in a strong security posture, including adhering to NDAA, SOC2 (Type II), ISO 27001, ISO 27018 FedRAMP 20x, and Higher Education Community Vendor Assessment Tool (HECVAT) compliance. Additional security precautions include Role-Based Access Controls, data encrypted at-rest and in transit, required Multi-Factor Authentication, and regular penetration testing.

Myth

Flock sells and/or shares customer data.

Fact

Your community owns 100% of your data and it will never be sold. Only your agency decides who to share your data with, not Flock. Flock Safety does not publicly release agency search data. Flock does not operate or support any public-facing searchable database of law enforcement lookups, and we do not provide license plate search histories to websites or third parties without the agency's knowledge and authorization. Other agencies who you share footage with have been responding to FOIA requests and sharing this search data.

Myth

My data is fed into a national database.

Fact

Each agency controls access to its own data. Agencies may choose to share information through a broader network, but nothing is shared automatically. Participation is opt-in, governed by defined agreements, and limited to lawful investigative purposes.

Myth

Flock cameras use facial recognition.

Fact

Flock cameras do not use facial recognition technology. Searches are based on vehicle characteristics, and not identity. Flock cannot recognize, identify, or track individuals. It is purpose built for specific public safety investigations, not to monitor people.
