No document. Looks like she just cropped it. I sent her another email asking for the dates of when they were decommissioned and to confirm those are the ones from 2023 to now.

In regard to the location of each camera, do you want me to send that over to you or do you have that? It is listed under device network. I just don't see an option where you can download the locations into excel. I think we would just have to snip them.

Hi,

Got another one:

1. A list of all Flock Safety devices currently or previously associated with the San Mateo Police Department, including for each device: location (address or intersection for fixed devices; designation as mobile/trailer-mounted if applicable), device type or model/product designation (e.g., Falcon, Condor, or other), whether the device has ALPR capability, ownership status (SMPD-owned, community camera, or other — please specify), and installation or activation date.
2. A list of any Flock devices that have been decommissioned, removed, relocated, or taken offline since January 1, 2023, including dates and any records documenting the reason.
3. All invoices and payment records between Flock Safety and the City of San Mateo from January 1, 2023 to present, including any installation fees, service charges, or other payments beyond the master service agreement. If invoices are not itemized by device, please include the total invoiced amount and the number of devices covered per invoice period.

Tricia/Juliana can you please help me with number 3
