Re: Flock Audit July 2026 pursuant to Policy 463

In August 2026, I conducted an audit of our internal and external ALPR usage for July 2026. The audit covered our internal and external usage for Flock Safety and internal usage of Vigilant. The review assessed access, search reasons, as well as for entries not in compliance with Lexipol Policy 463. I verified that data sharing is limited to agencies within California, with no sharing occurring with federal law enforcement agencies or agencies outside the state. I also confirmed that the "Revoke Out-of-State Sharing" setting is selected.

On 07/14/2026, I temporarily disabled our network sharing in Flock while I drafted an ALPR Data Sharing Agreement. The agreement has now been finalized and is being sent to agencies that have requested access to our data. Once the signed agreements are received by me, I instruct the respective agency to request sharing access in Flock which I then approve. As of this writing, we are only sharing with three agencies- Belmont PD, Foster City PD, and Palo Alto PD. Additionally, our ALPR policy has been updated to show that a written request (Data Sharing Agreement) is now required before any agency is granted access to our shared ALPR data.

Finally, I confirmed Lexipol Policy 463, SOP 205, Public Audit, and Network Sharing are displayed on our transparency portal. A follow-up audit will be conducted in September to review ALPR usage for the month of August.
