Subject: California Public Records Request :: W013261-081826

Body:

RE: PUBLIC RECORDS REQUEST of August 18, 2026, **Reference # W013261-081826**

Dear Brian C,

The City received the following records request from you on August 18, 2026.

Pursuant to the California Public Records Act (Gov. Code § 7920.000 et seq.), I request the following records from the San Mateo Police Department. This request seeks existing records only (Gov. Code § 7922.530; Sierra Club v. Superior Court (2013) 57 Cal.4th 157).

Context

As you are aware, SMPD Policy 463, section 463.8 (Releasing ALPR Data, effective December 22, 2025, produced under W012666-050426) provides that ALPR data "may be shared only with public agencies and only as otherwise permitted by law," and states: "The following procedures are guidelines for ALPR requests: (a) The agency makes a request for the ALPR data that includes: 1. The name of the agency. 2. The name of the person requesting. 3. The intended purpose of obtaining the information. (b) The request is reviewed by the ALPR Committee Captain or the authorized designee and approved before the request is fulfilled."

The Department's Flock Safety transparency portal listed approximately 259 agencies receiving San Mateo ALPR data in early July 2026; on or about July 16, 2026 the portal listed no recipient agencies; as of August 13, 2026 it listed five agencies; and as of August 17, 2026 it lists six: Belmont Police Department, Brisbane Police Department, California Highway Patrol, Foster City Police Department, Palo Alto Police Department, and South San Francisco Police Department.

Records held by Flock Safety as the Department's contractor are Department records regardless of physical location (Gov. Code § 7920.530; City of San Jose v. Superior Court (2017) 2 Cal.5th 608), as reflected in the Department's production of a Flock platform event log export under W012570-041926.

Records requested — covering December 22, 2025 through the date of production:

- 1. Any written criteria, standards, or guidelines governing the approval, denial, periodic review, or termination of ALPR data-sharing relationships with California public agencies, beyond the text of Policy 463.8 itself — including any criteria applied in the 2026 changes to the Department's sharing list.*
- 2. Records of the decision reflected in the transparency portal on or about July 16, 2026, when the list of recipient agencies went from approximately 259 to none — including any memorandum, directive, instruction, or other record of the decision, its authorization, and the criterion applied.*
- 3. For each agency listed as a recipient as of the date this request is processed — as of August 17, 2026: Belmont Police Department, Brisbane Police Department, California Highway Patrol, Foster City Police*

Department, Palo Alto Police Department, and South San Francisco Police Department — the request record described in Policy 463.8(a) (the name of the agency, the name of the person requesting, and the intended purpose), and the record of review and approval by the ALPR Committee Captain or the authorized designee described in Policy 463.8(b), whether the sharing relationship was newly created or reinstated.

4. Records of the review, approval, or authorization of each other addition or removal of a recipient agency from the Department's sharing configuration during the covered period.

5. The Flock platform event log for the Department's account, limited to networkShare and other sharing-configuration events (creation, modification, and deletion), for the covered period, in the native export format in which Flock provides it. This is the record type the Department obtained and produced under W012570-041926; this item seeks the same record type for the stated period and event scope.

If no records are located for any individual item, please respond to that item separately and continue processing the remaining items.

If the Department contends that review and approval under Policy 463.8 occur within the Flock platform without generating a separate record, please identify the platform records reflecting each review and approval described in item 3, and produce them under item 5.

Each item is severable. If any single item requires additional processing time, please respond to the remaining items on the statutory timeline rather than extending the request as a whole.

If any portion is denied, please provide specific exemption citations per Gov. Code § 7922.540 and identify the withheld record type and volume. Exact copies of existing records are requested per Gov. Code § 7922.530(a); this request does not ask the Department to create any record that does not exist — where none exists, a statement to that effect is requested.

Thank you.

We have made a good faith and diligent effort to complete your request, in which responsive records have been collected. These records are available on the San Mateo Records Request Portal. Select the link below to view.

The City has completed its response to your request and now considers this record request **W013261-081826** closed.

If you have any questions, please contact me using the below contact information.

Sincerely,

Kelly O'Keefe

Clarification for the record on scope: all items in this request seek platform exports, platform event-log records, and internal approval or decision records. No review of any inbound vendor-email corpus is requested or required to respond to any item.
