Subject: Camera Access Request from Albany CA PD
From: hello=flocksafety.com@mail.flocksafety.com
To: Paul Pak <pak@cityofsanmateo.org>;

Good Morning! We recently acquired access to Flock cameras. Albany PD would like to connect to your cameras so we can more efficiently investigate crimes that have occurred in your area and ours. If you have any questions regarding our ability to access them, please contact me directly at jkurland@albanyca.org. Thank you, Justin Kurland Detective Sergeant Albany Police Department

Albany CA PD has requested access to your San Mateo CA PD's Flock Safety camera footage for review in the event of a crime in your community. Granting them access now may lead to quicker results should a crime occur.

To share access to your cameras, you must add Albany CA PD to your access list:

1. Open [User Management](#)
2. Click on the "Share" button next to the networks list
3. In the "Cameras to Share" dropdown, select the network you would like to share
4. In the "Share with" dropdown, select Albany CA PD
5. Click "Save"

As the owner of your footage, you can revoke this access at any time. If you have questions or need further assistance, please reply to this message or email support@flocksafety.com.

Thanks for being a part of the Flock.
