Good morning,

Join us tomorrow, July 29th, at 1 pm ET / 10 am PT for an educational webinar led by former Sgt. Kevin Cox of the Grand Prairie Police Department. By adhering to his playbook, his agency virtually stopped catalytic converter theft in his jurisdiction for good. Together, we'll learn how to use Flock Safety's ALPR and Vehicle Fingerprint [™] technology to apprehend suspects and prevent further loss through data-driven policy change.

Click [here](#) to register and get your copy of the playbook.

Please share this event with your colleagues. We look forward to seeing you there!
