**Subject:** Live Webinar: How to Scale Law Enforcement Technology for Long-Term Crime Reduction  
**From:** Maureen Mulvaney <maureen.mulvaney@flocksafety.com >  
**To:** Phoenix O'Rourke <porourke@cityofsanmateo.org >;

Join us on **Wednesday, April 20th, at 1 PM ET / 10 AM PT** for an educational webinar highlighting how to scale crime-fighting technology that drives results for your agency without creating administrative headaches – [register here](#)

Guest speakers include Sergeant Brian Safris from Wichita PD, who will share insight into his experience creating a task force, which has resulted in multiple felony arrests and over \$1.1M in recovered stolen property. We will also cover:

- How to select and adopt technology that produces data-driven results for your agency
- Scaling your tech stack to maximize efficiency and adoption while reducing “clutter”
- Practical applications and tips for property crime and violent crime reduction using flexible ALPR solutions

Hope to see you there!
