JUNCTION CITY COUNCIL
AGENDA ITEM SUMMARY

AXON ALPR Presentation

Meeting Date: 10282025 | Agenda Item Number: 2
Department: Police | Staff Contact: Mark Waddell
www.junctioncityoregon.gov | Contact Telephone Number: 541-998-1245

ISSUE STATEMENT
AXON automated license plate recognition (ALPR) cameras will help JCPD capture vehicle data to support criminal investigations, improve public safety, and enhance coordination with regional agencies.

BACKGROUND
The Police Department has been looking at technology to help temporarily offset the need for more personnel. One encouraging emerging technology has been in License Plate Readers (LPR) or Advanced License Plate Readers (ALPR).

Staff received a demonstration from AXON as they have the only real competitive product on the market and it is still in the testing phase. Axon products are called Outpost and Light Post and function almost exactly as the Flock LPR cameras with a few noticeable differences.

- Axon cameras can be affixed to most of the existing streetlights.
- They offer live view and playbacks for their cameras.
- They capture both front and rear license plates. (Flock only captures the rear)
- Axon video would be integrated into JCPD's existing evidence.com.
- Axon data currently is only shared with other Axon LPR agencies (Only OSP in Lane County)
- Axon products will likely not be available until 2026.
- The city owns the cameras with Axon, while Flock cameras are leased.

At this time Staff is not asking for a decision to made between Flock and Axon. This presentation is for discussion and information purposes only at this time.

AXON

THIS IS OUR MOONSHOT

CUT GUN-RELATED DEATHS BETWEEN POLICE AND THE PUBLIC BY 50% IN 10 YEARS

We must do something.
In 2022 in the U.S., 1,158 people — 1,096 civilians and 62 officers — lost their lives in gun-related incidents between police and the public, according to leading data sources.

It won't be easy.
These losses reflect a complex set of issues, and the impact on communities is felt deeply and daily. We will need new ideas, new technologies, new training procedures, new policies, and even new regulations to guide the way.

Together, we can protect life.
We are calling on our own team members, leaders of the law enforcement profession, community organizations, technology companies, elected officials and others representing the best ideas to support and achieve this goal.

In short, we need a movement behind the mission to collectively develop realistic, research-based and responsible solutions to cut all gun-related deaths between police and the public in half by 2033.

Lightpost

ubicquia

- Long-range ALPR + VAR + live video
- Installs and connects in under an hour
- No new poles or permits, use existing streetlights
- Compatible with 60M streetlights in the US

AXON

Outpost

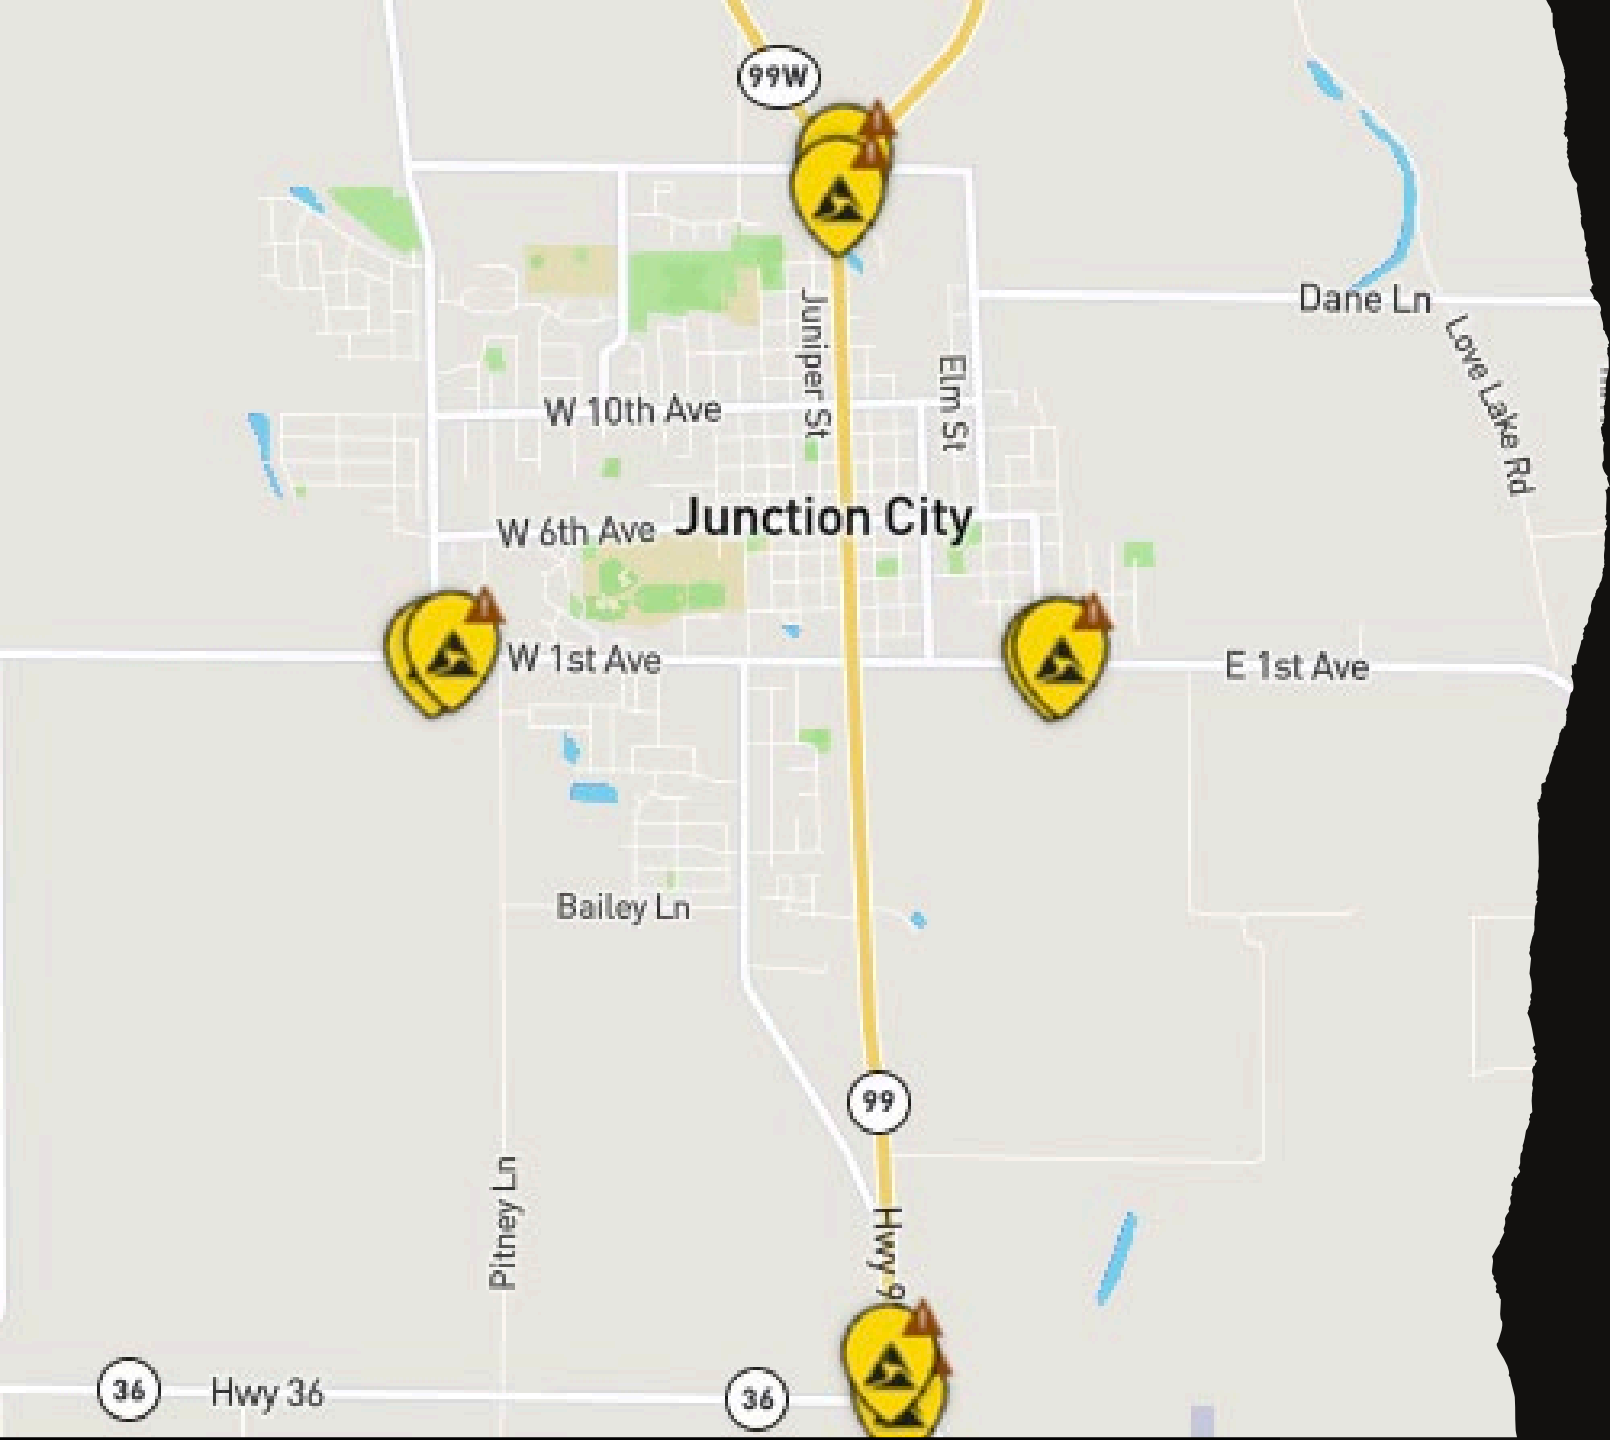

- Dual-camera fixed ALPR + VAR + live video
- Flexible placement and power options
- Competitive pricing + first year free with pole swap
