Automatic License Plate Reader

▼ ALPR OPERATIONAL GUIDELINES MEMO

Automatic License Plate Reader

Fixed ALPR

- Stationary Cameras – Poles & Trailers

Mobile ALPR

- Cameras on vehicles

Hotsheet or Hotlist

- Agency specific wanted list

Feed

- Review of all captured photos within a timeframe

Automatic License Plate Reader

- Community concerns – Privacy & Tracking
- ALPR does not collect personal information
- Some of our neighboring agencies are having difficulties getting approval to use ALPR
- ALPR was presented to our City Council in 2018 (PIPs) and 2020(Flock) providing an opportunity for public comment fulfilling CA Civil Code 1798.90.55(a) requirement.
- We must get it right not to lose access

ALPR OVERVIEW

- Our Department currently uses four ALPR technology platforms

Flock Safety Inc.

The logo for Flock Safety Inc. features the words "flock safety" in a lowercase, green, sans-serif font.

PIPs Technology (PAGIS & BOSS)

Cars 6, 12, 20, 37, 2 trailers

Vigilant Solutions

NCRIC (Northern California Regional Intelligence Center)

Serco Parking ALPR & Public Works Dumping Cameras

**San Mateo
Police**

flock safety

flock safety

- Data captured via Flock Safety Inc. is hosted in the cloud and stores license plate data such as date, time location, photo of plate
- Data is held for **30 days**, then automatically deleted and purged from Flock's system.
- Data from Flock are uploaded to NCRIC – Astrometrics and held for **365 days** but, unable to search feed

flock safety

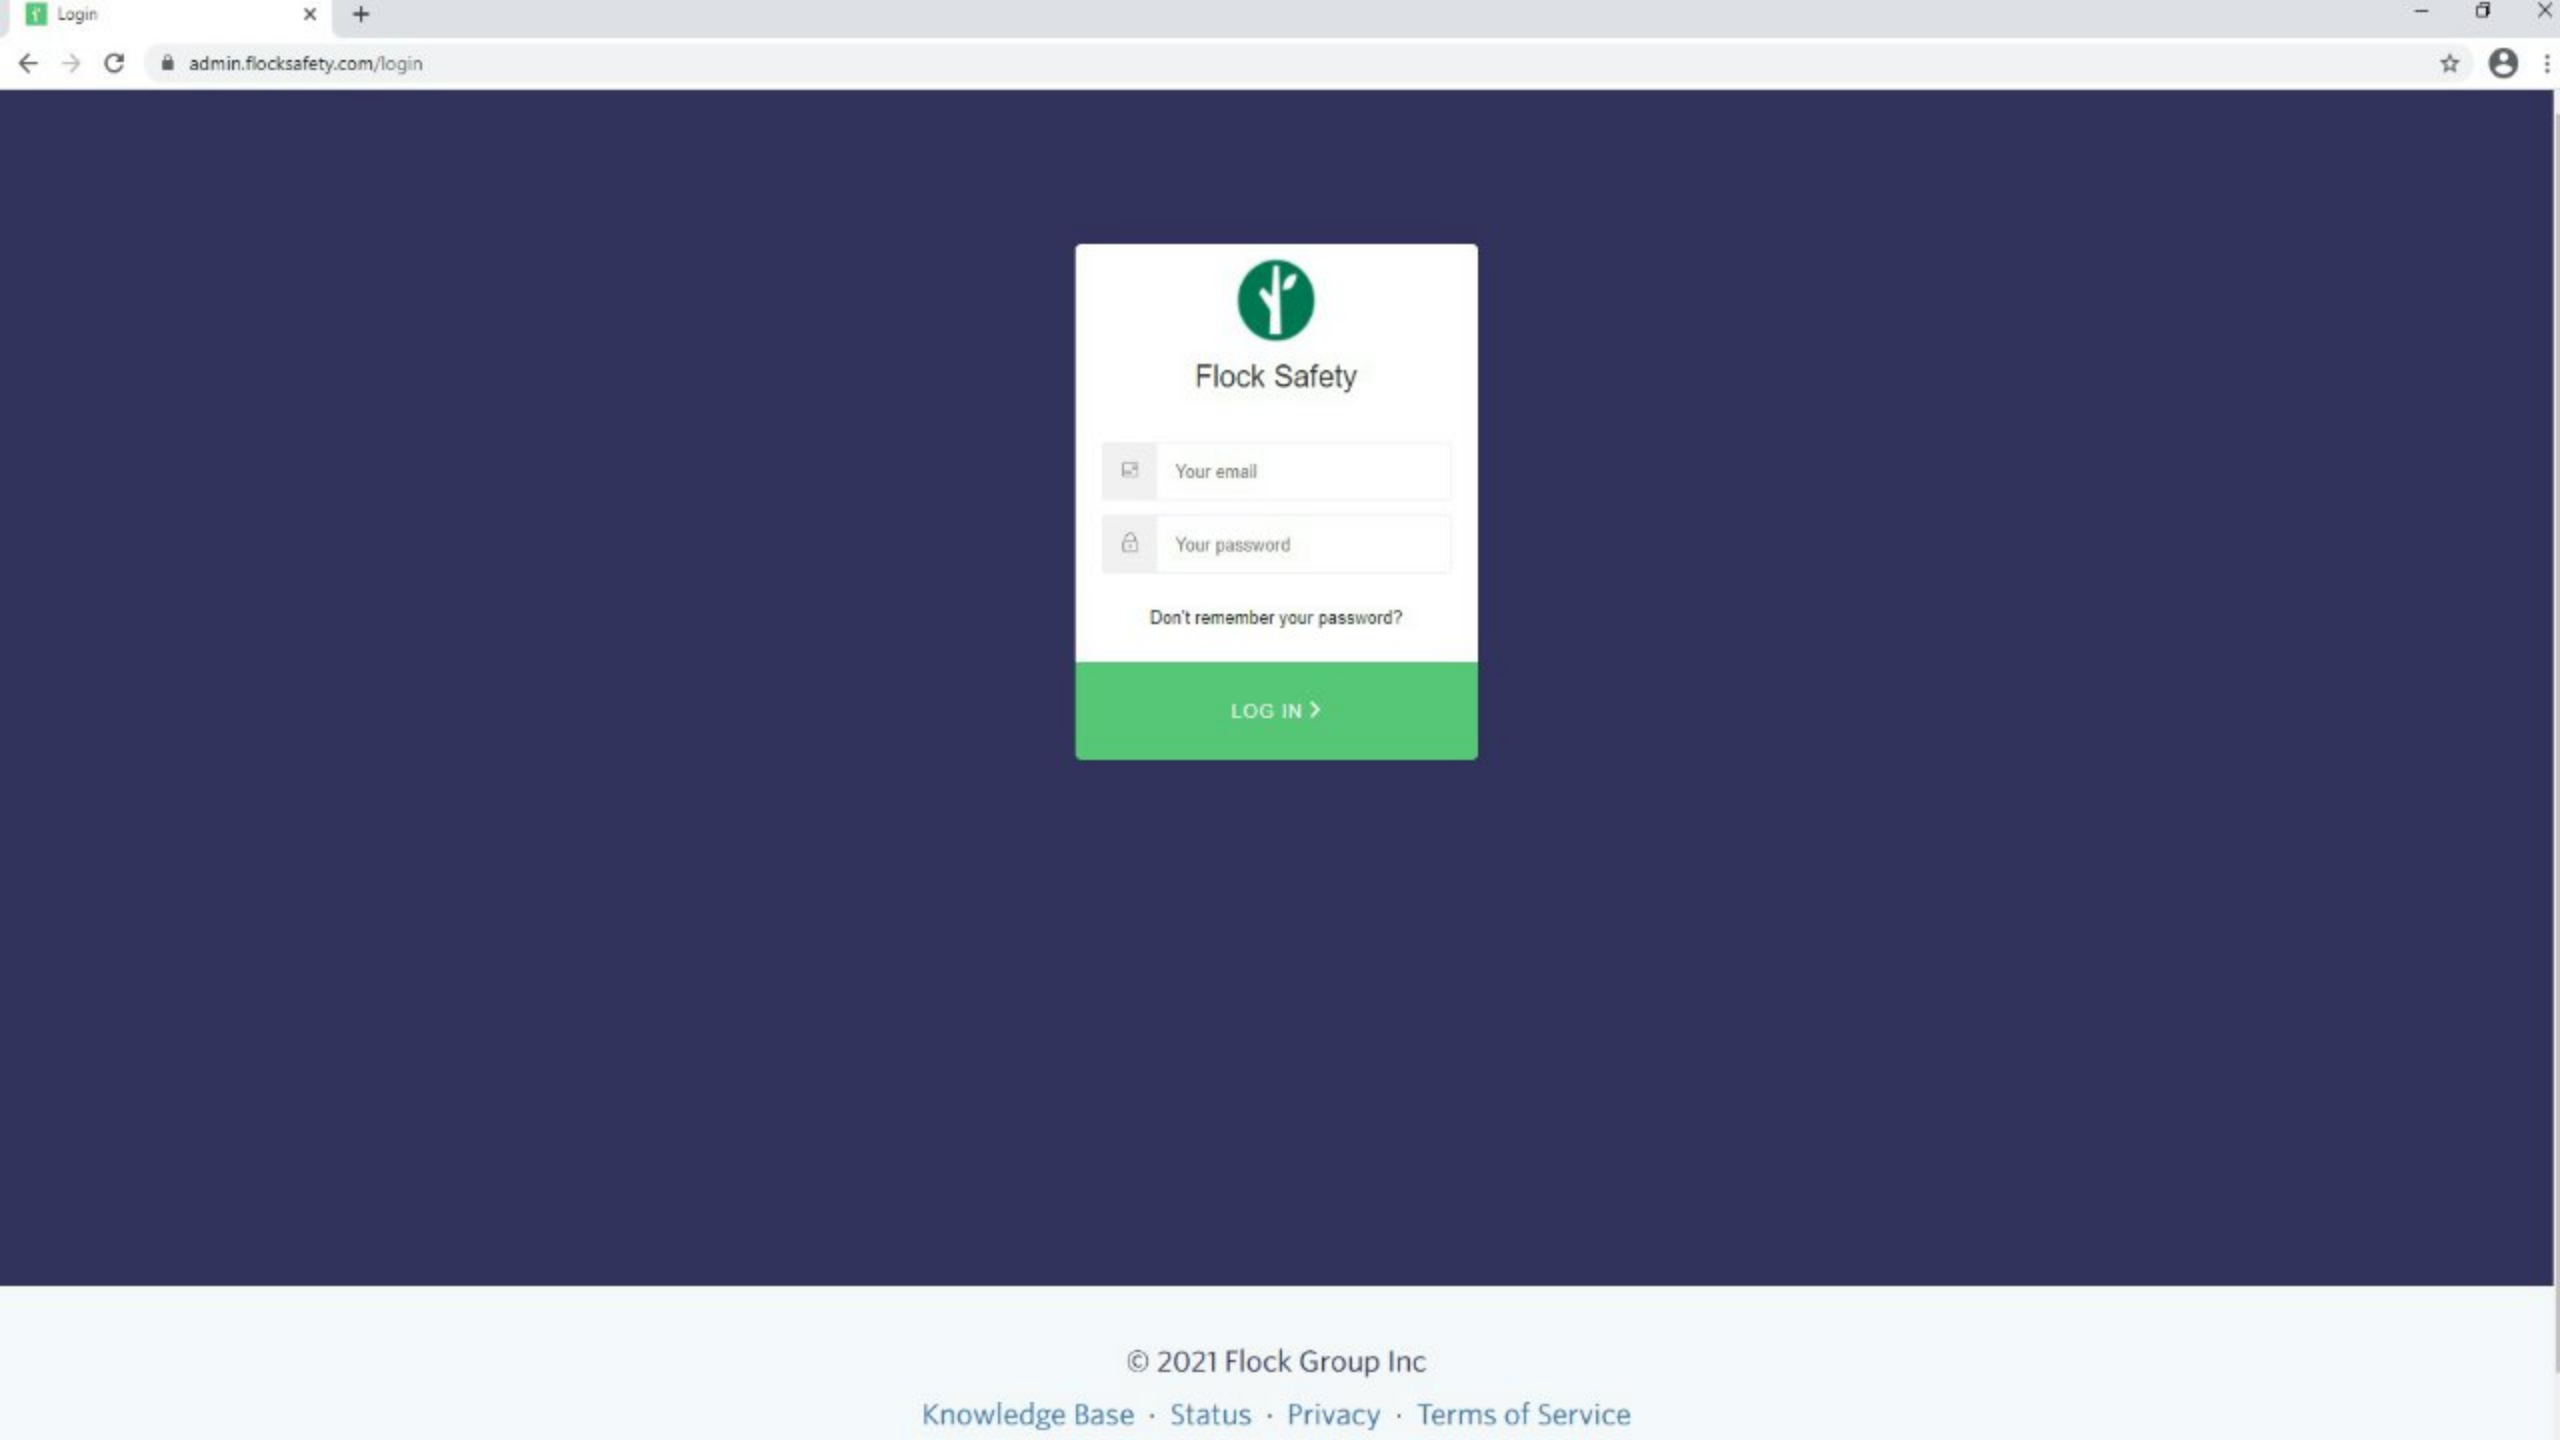

- Currently in have 22 ALPR cameras deployed
 - 19 at fixed locations
 - 3 on traffic trailers
- Personnel can log in to the Flock website to access our data as well as the data from other agencies that have chosen to share with us
- DATA SECURITY

Physical: Multi factor secured VPN access to database, and secure off-site database.

Technical: All information is encrypted in transit from camera to cloud storage and encrypted at rest in the cloud.

flock safety

- Flock cameras appears to be more accurate utilizing AI technology (number reads and State ID) compared to reflective trigger on competitor's system
- Any community member, HOA, and businesses can purchase Flock cameras and share their data with the PD
- Flock is relativity new to LE ALPR and constantly updating their system

Tips & Tricks

Search^z with Wildcards

Wildcards can help narrow your search if you know most of a plate except for specific characters. To use a wildcard, replace unknown characters with an asterisk *

Your search results will contain any plates that follow the pattern of your search. For example, searching for ABC*234 could return any of the following:

- ABCD234
- ABC1234
- ABC234
- ABC-234
- ABCD1234

Search for a Partial Match

Partial searches can help narrow your search if you know only some of the characters on a plate. To use a partial plate search, enter the characters you know.

Your search results will contain any plates that contain the sequence you entered. For example, searching for ABC could return any of the following:

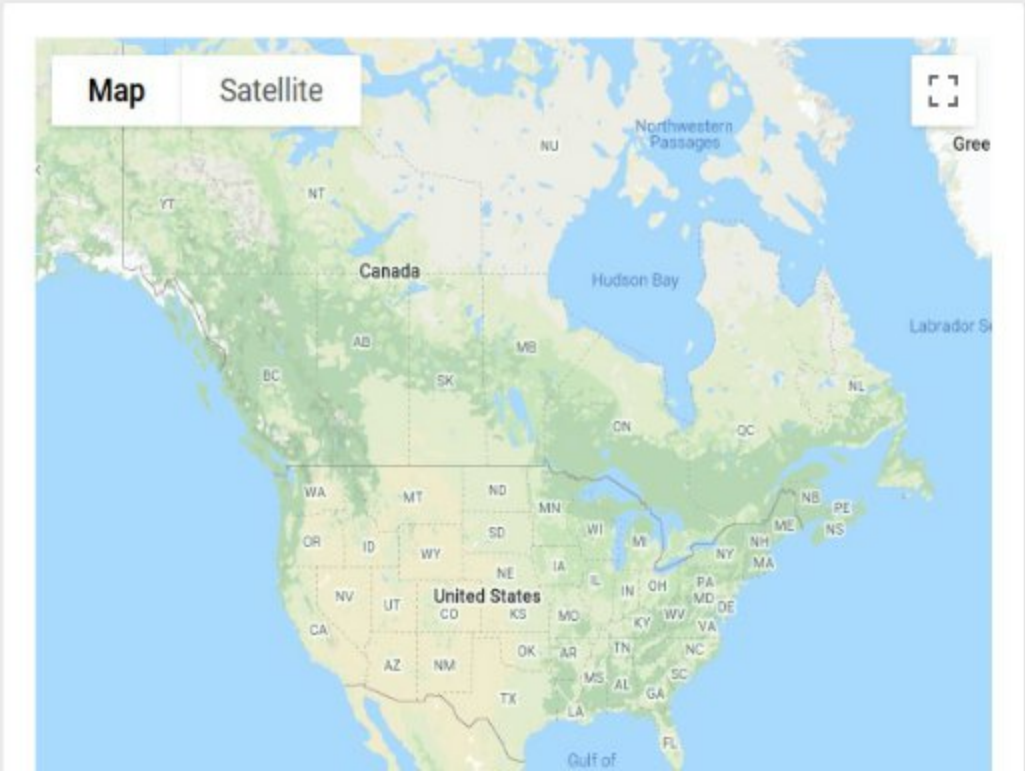

- ABC1234
 - 1234ABC
 - 12ABC34
-
