

Automated License Plate Reader (ALPR) Training

Flock Safety

Updated May 8, 2026

www.flocksafety.com

Agenda

- Department Policy 463
- Standard Operating Procedure 205
- Overview of SMPD's ALPR Program
- Department approved training for Flock Safety
- Flock Training & Certification
 - Certification not necessary as of yet (02/01/25)

ALPR

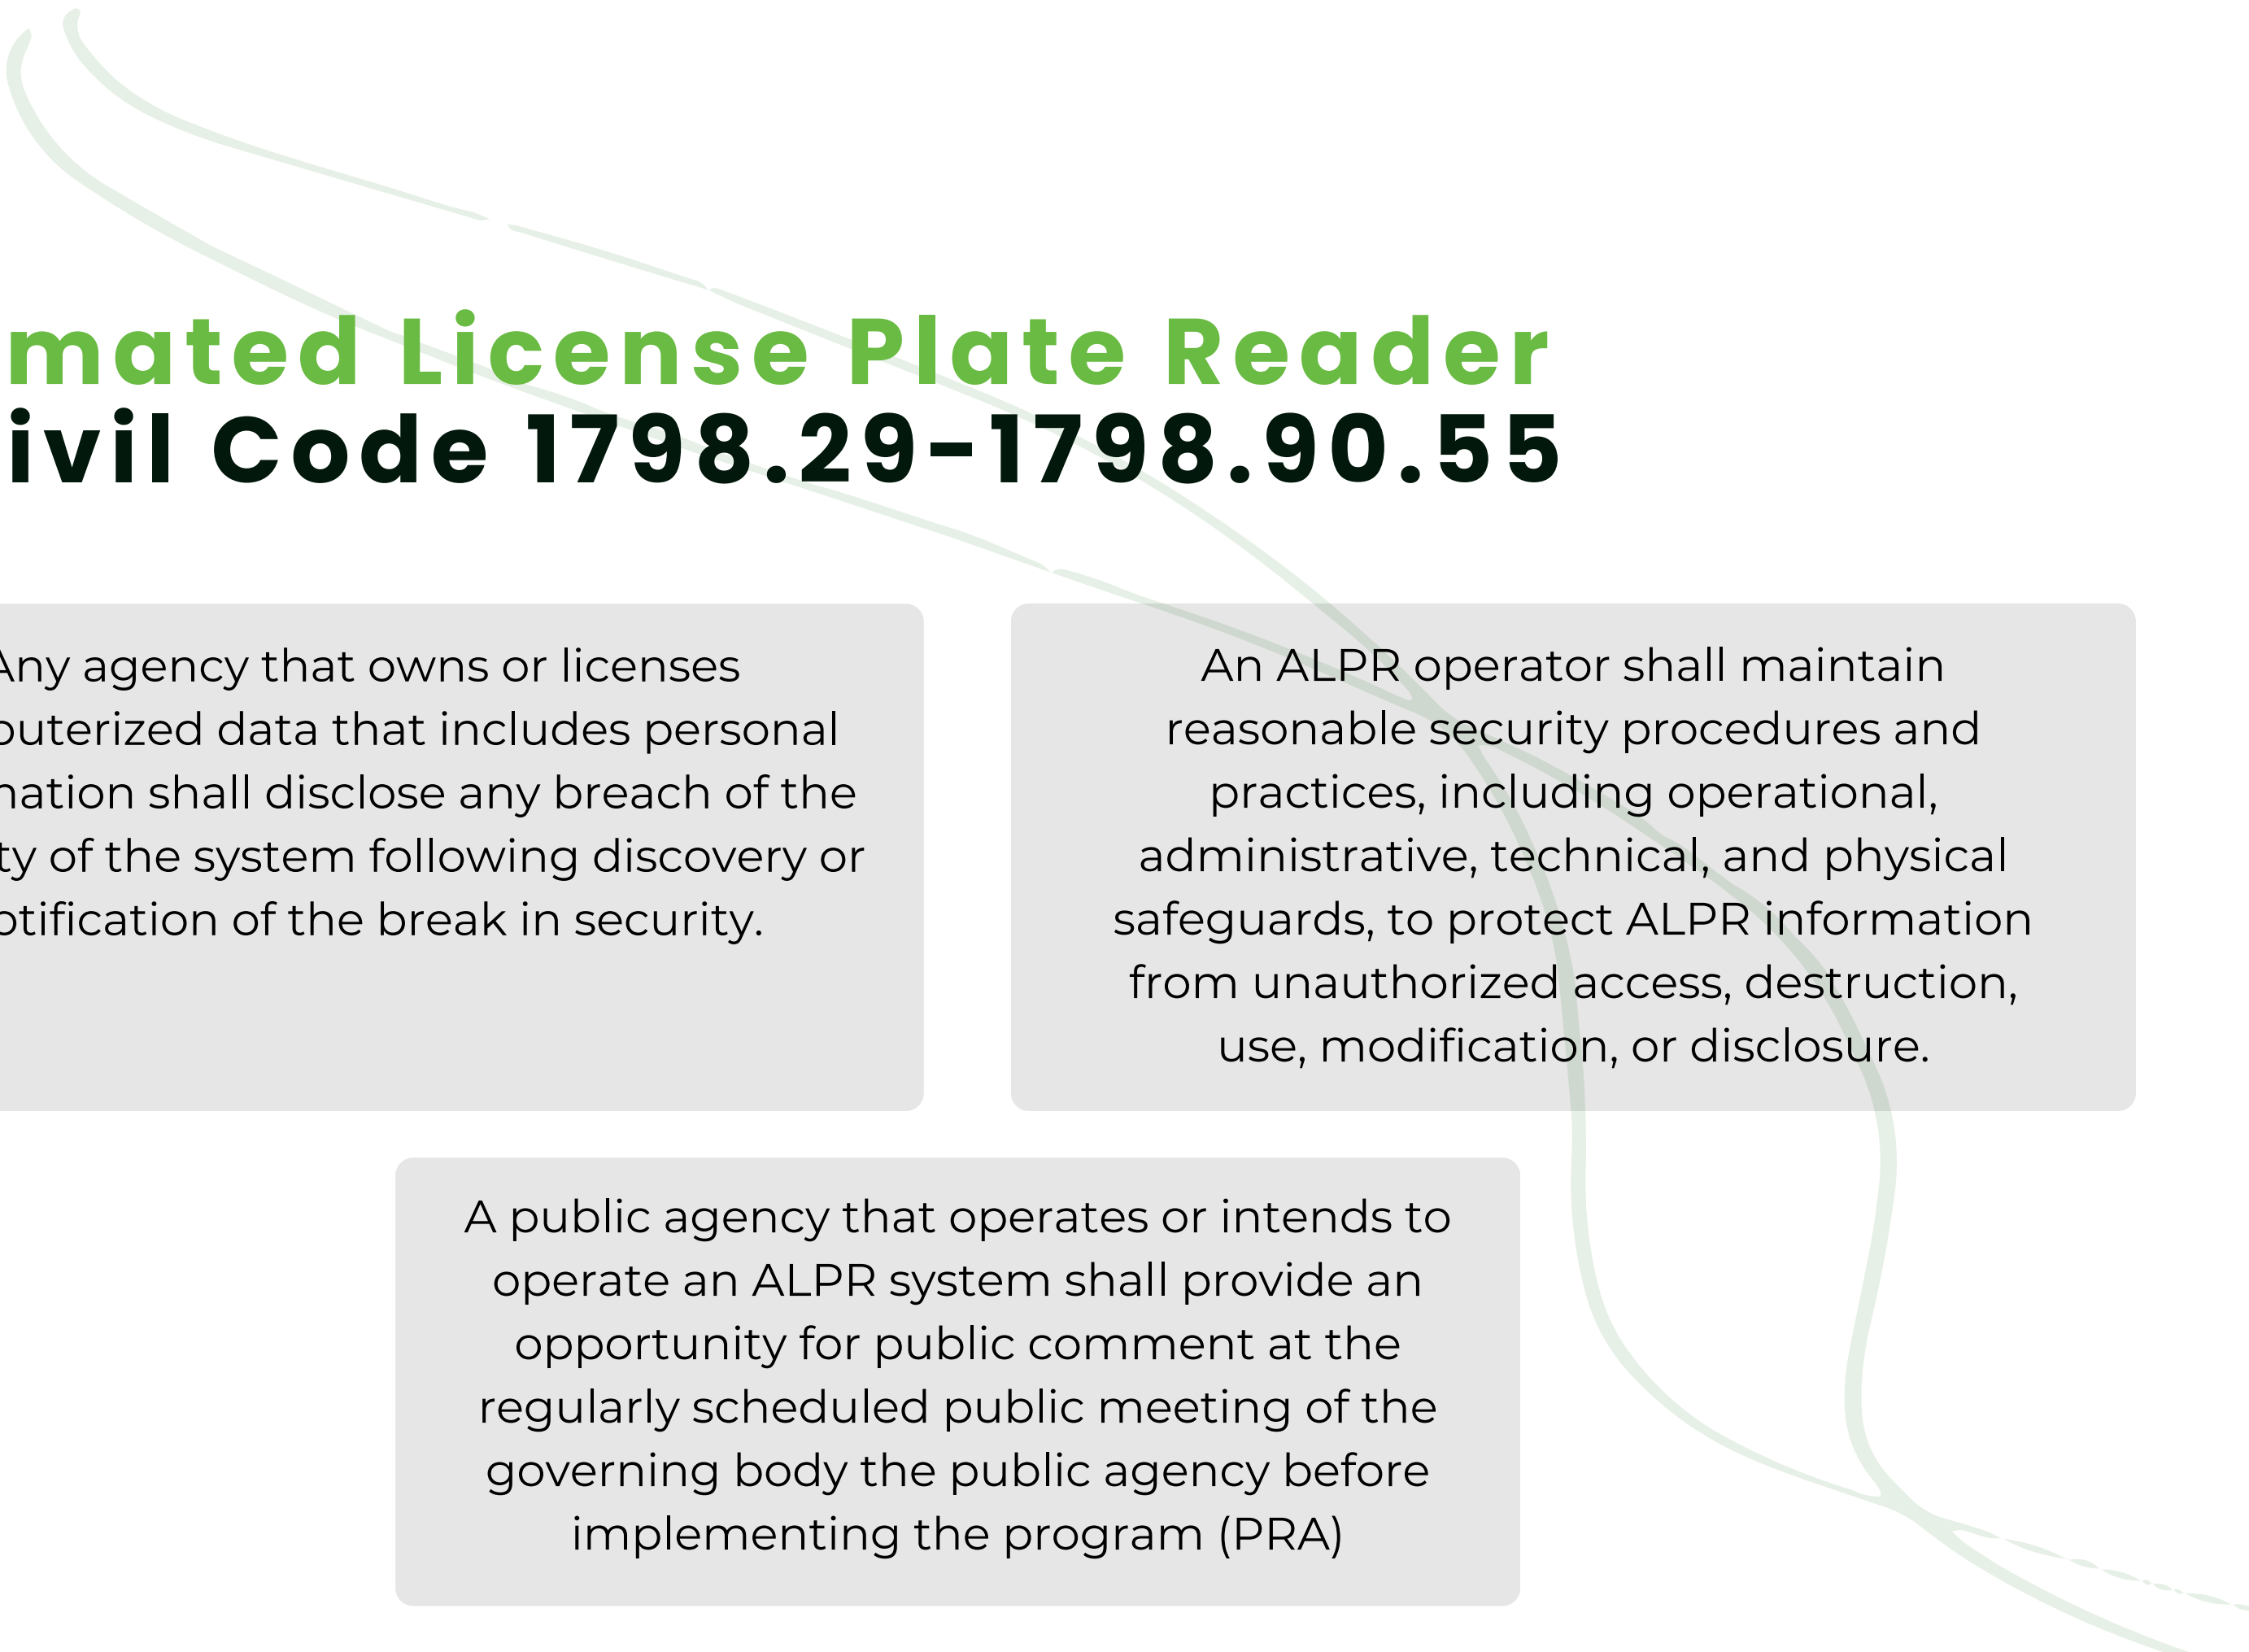

SB-34

Existing law authorizes the Department of the California Highway Patrol to retain license plate data captured by license plate recognition (LPR) technology for not more than 60 days unless the data is being used as evidence or for the investigation of felonies.

Existing law authorizes the department to use LPR data for the purpose of locating vehicles or persons reasonably suspected of being involved in the commission of a public offense, and requires the department to monitor the internal use of the data to prevent unauthorized use and to submit to Legislature, as a part of the annual automobile theft report, information on the department's LPR practices and usage.

Automated License Plate Reader

CA Civil Code 1798.29-1798.90.55

Any agency that owns or licenses computerized data that includes personal information shall disclose any breach of the security of the system following discovery or notification of the break in security.

An ALPR operator shall maintain reasonable security procedures and practices, including operational, administrative, technical, and physical safeguards, to protect ALPR information from unauthorized access, destruction, use, modification, or disclosure.

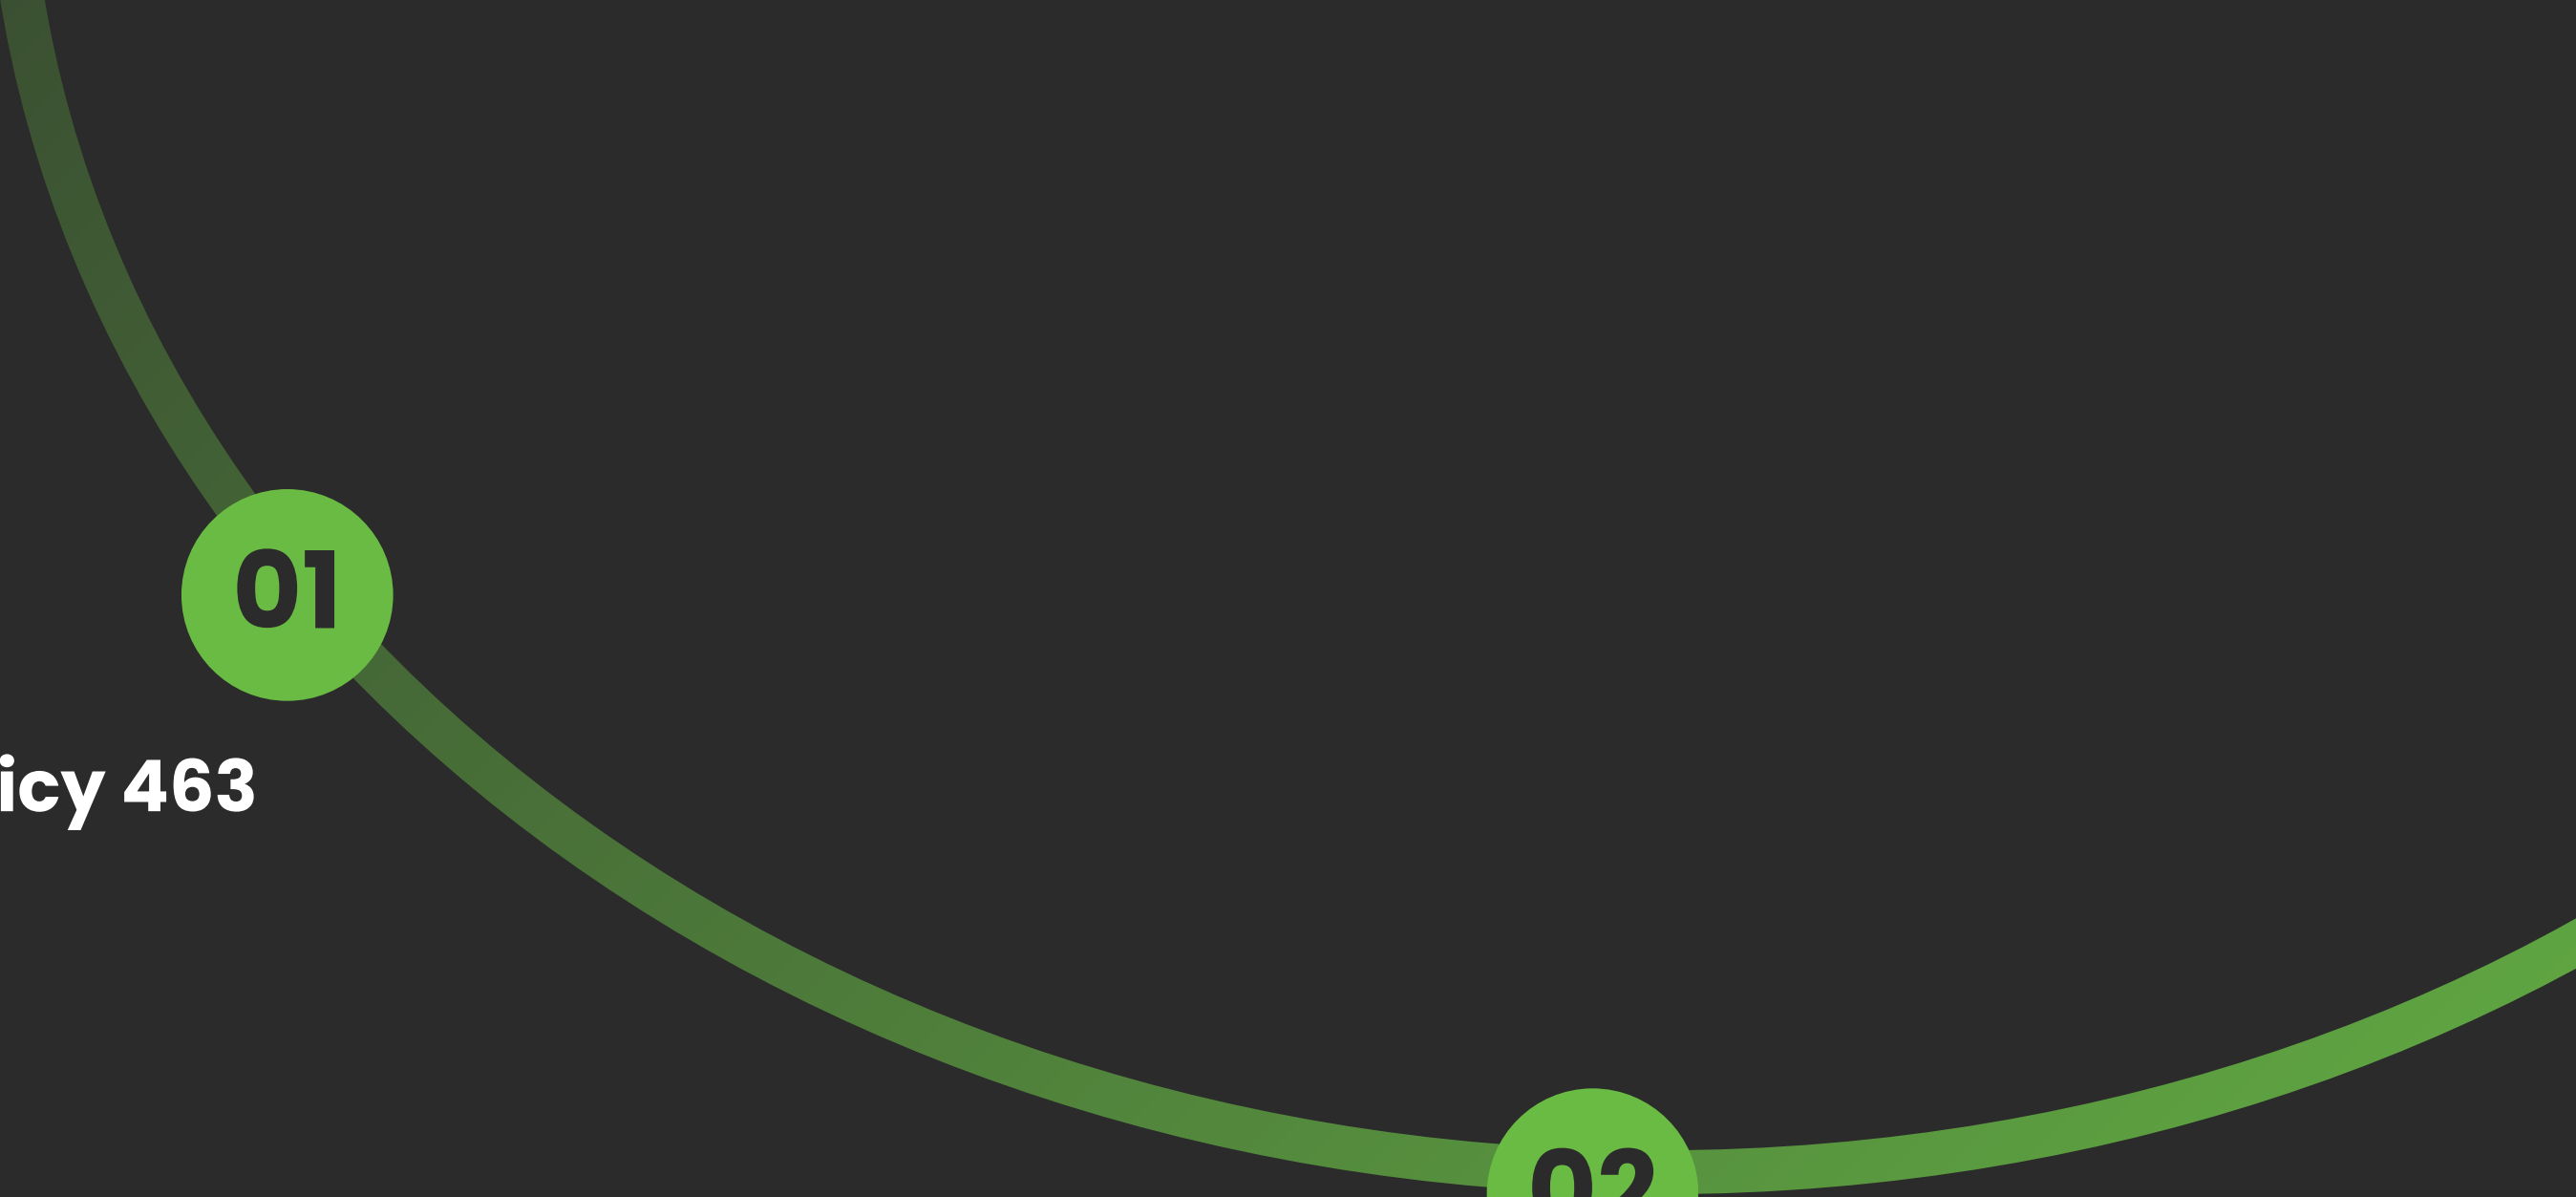

A public agency that operates or intends to operate an ALPR system shall provide an opportunity for public comment at the regularly scheduled public meeting of the governing body the public agency before implementing the program (PRA)

Policy & Procedure

Community Concerns - Privacy & Tracking

ALPR does not collect personal information

ALPR was presented to our City Council in 2018 (PIPs) and 2020 (Flock) providing an opportunity for public comment fulfilling CA Civil Code 1798.90.55(a) requirement

We must get it right not to lose access
(FOLLOW PROCEDURE)

ALPR Devices

Fixed ALPR

- Flock Falcon
 - infrastructure-free LPR for standard two-lane roadways with moderate traffic
- Flock Condor
 - live and recorded video
- Flock Raven
 - audio detection that pairs with LPR and video

Falcon

Condor

Raven

Mobile ALPR

- Fleet Cameras (PIPs)
 - Axon integrates with Flock ('Look Up' Search)
- Flock Falcon Flex
 - location flexible LPR for temporary coverage that can be installed anywhere in minutes
 - SMPD: SWAT helmets
 - LV Metro: BWC

Falcon Flex

ALPR Platforms

The logo for Flock Safety Inc. features the words "flock safety" in a white, lowercase, sans-serif font. The text is positioned on a dark teal rectangular background.

Flock Safety Inc.

- ALPR
- Flock OS- Real time intelligence software
- Flock Aerodome (drones)

Vigilant Solutions

- 3rd Party LPR system integration

LAZ Parking and Public Works (Dumping Cameras)
have ALPR technology that we can access separately

Flock Safety

- Runs on LTE + Solar Panels
- Utilizes AI technology to read a license plate and its state
 - Seems to be more accurate compared to the reflective trigger on competitor's system
- Data captured via Flock Safety Inc. is hosted in the cloud and stores license plate data such as date, time, location, and photo of the plate
- Data is held for **30 days**, then automatically deleted and purged from Flock's system
- Any community member, HOA, and businesses can purchase Flock cameras and share their data with PD

Flock Safety

- Data Security
 - **Physical:** Multi factor secured VPN access to database and secure off-site database
 - **Technical:** All information is encrypted in transit from camera to cloud storage and encrypted at rest in the cloud
- As of 5/08/2026, we have 81 ALPR Cameras deployed
 - 81 Flock falcons, 2 Flock condors
 - 5 trailer Flock falcons, 1 Flock Flex, 40 Axon fleet cameras
- Personnel can log into the Flock website to access our data and data from other agencies who've elected to share with us
- Flock constantly updates their systems

Flock Safety

- Flock cameras are constantly taking photos of passing vehicles
 - Takes 6-12 photos when it enters and exits the frame
 - Motion detection up to 75 ft
- Alert times (All dependent on cell service)
 - Day: Approximately 1 minute to 1 minute 30 seconds
 - Night: Approximately 30 seconds to 45 seconds
- Alert Options
 - Flock website
 - SMS text
 - Email

Notification Reasons

California SVS

- Felony Vehicles
- Stolen Plate
- Stolen Vehicle

NCMEC

(National Center for Missing & Exploited Children)

- Missing Child

Audio Detection

- Fireworks
- Multiple Gunshots
- Single Gunshot

Camera Map Groups **(City + Privately Owned)**

Selecting Cameras for Alerts

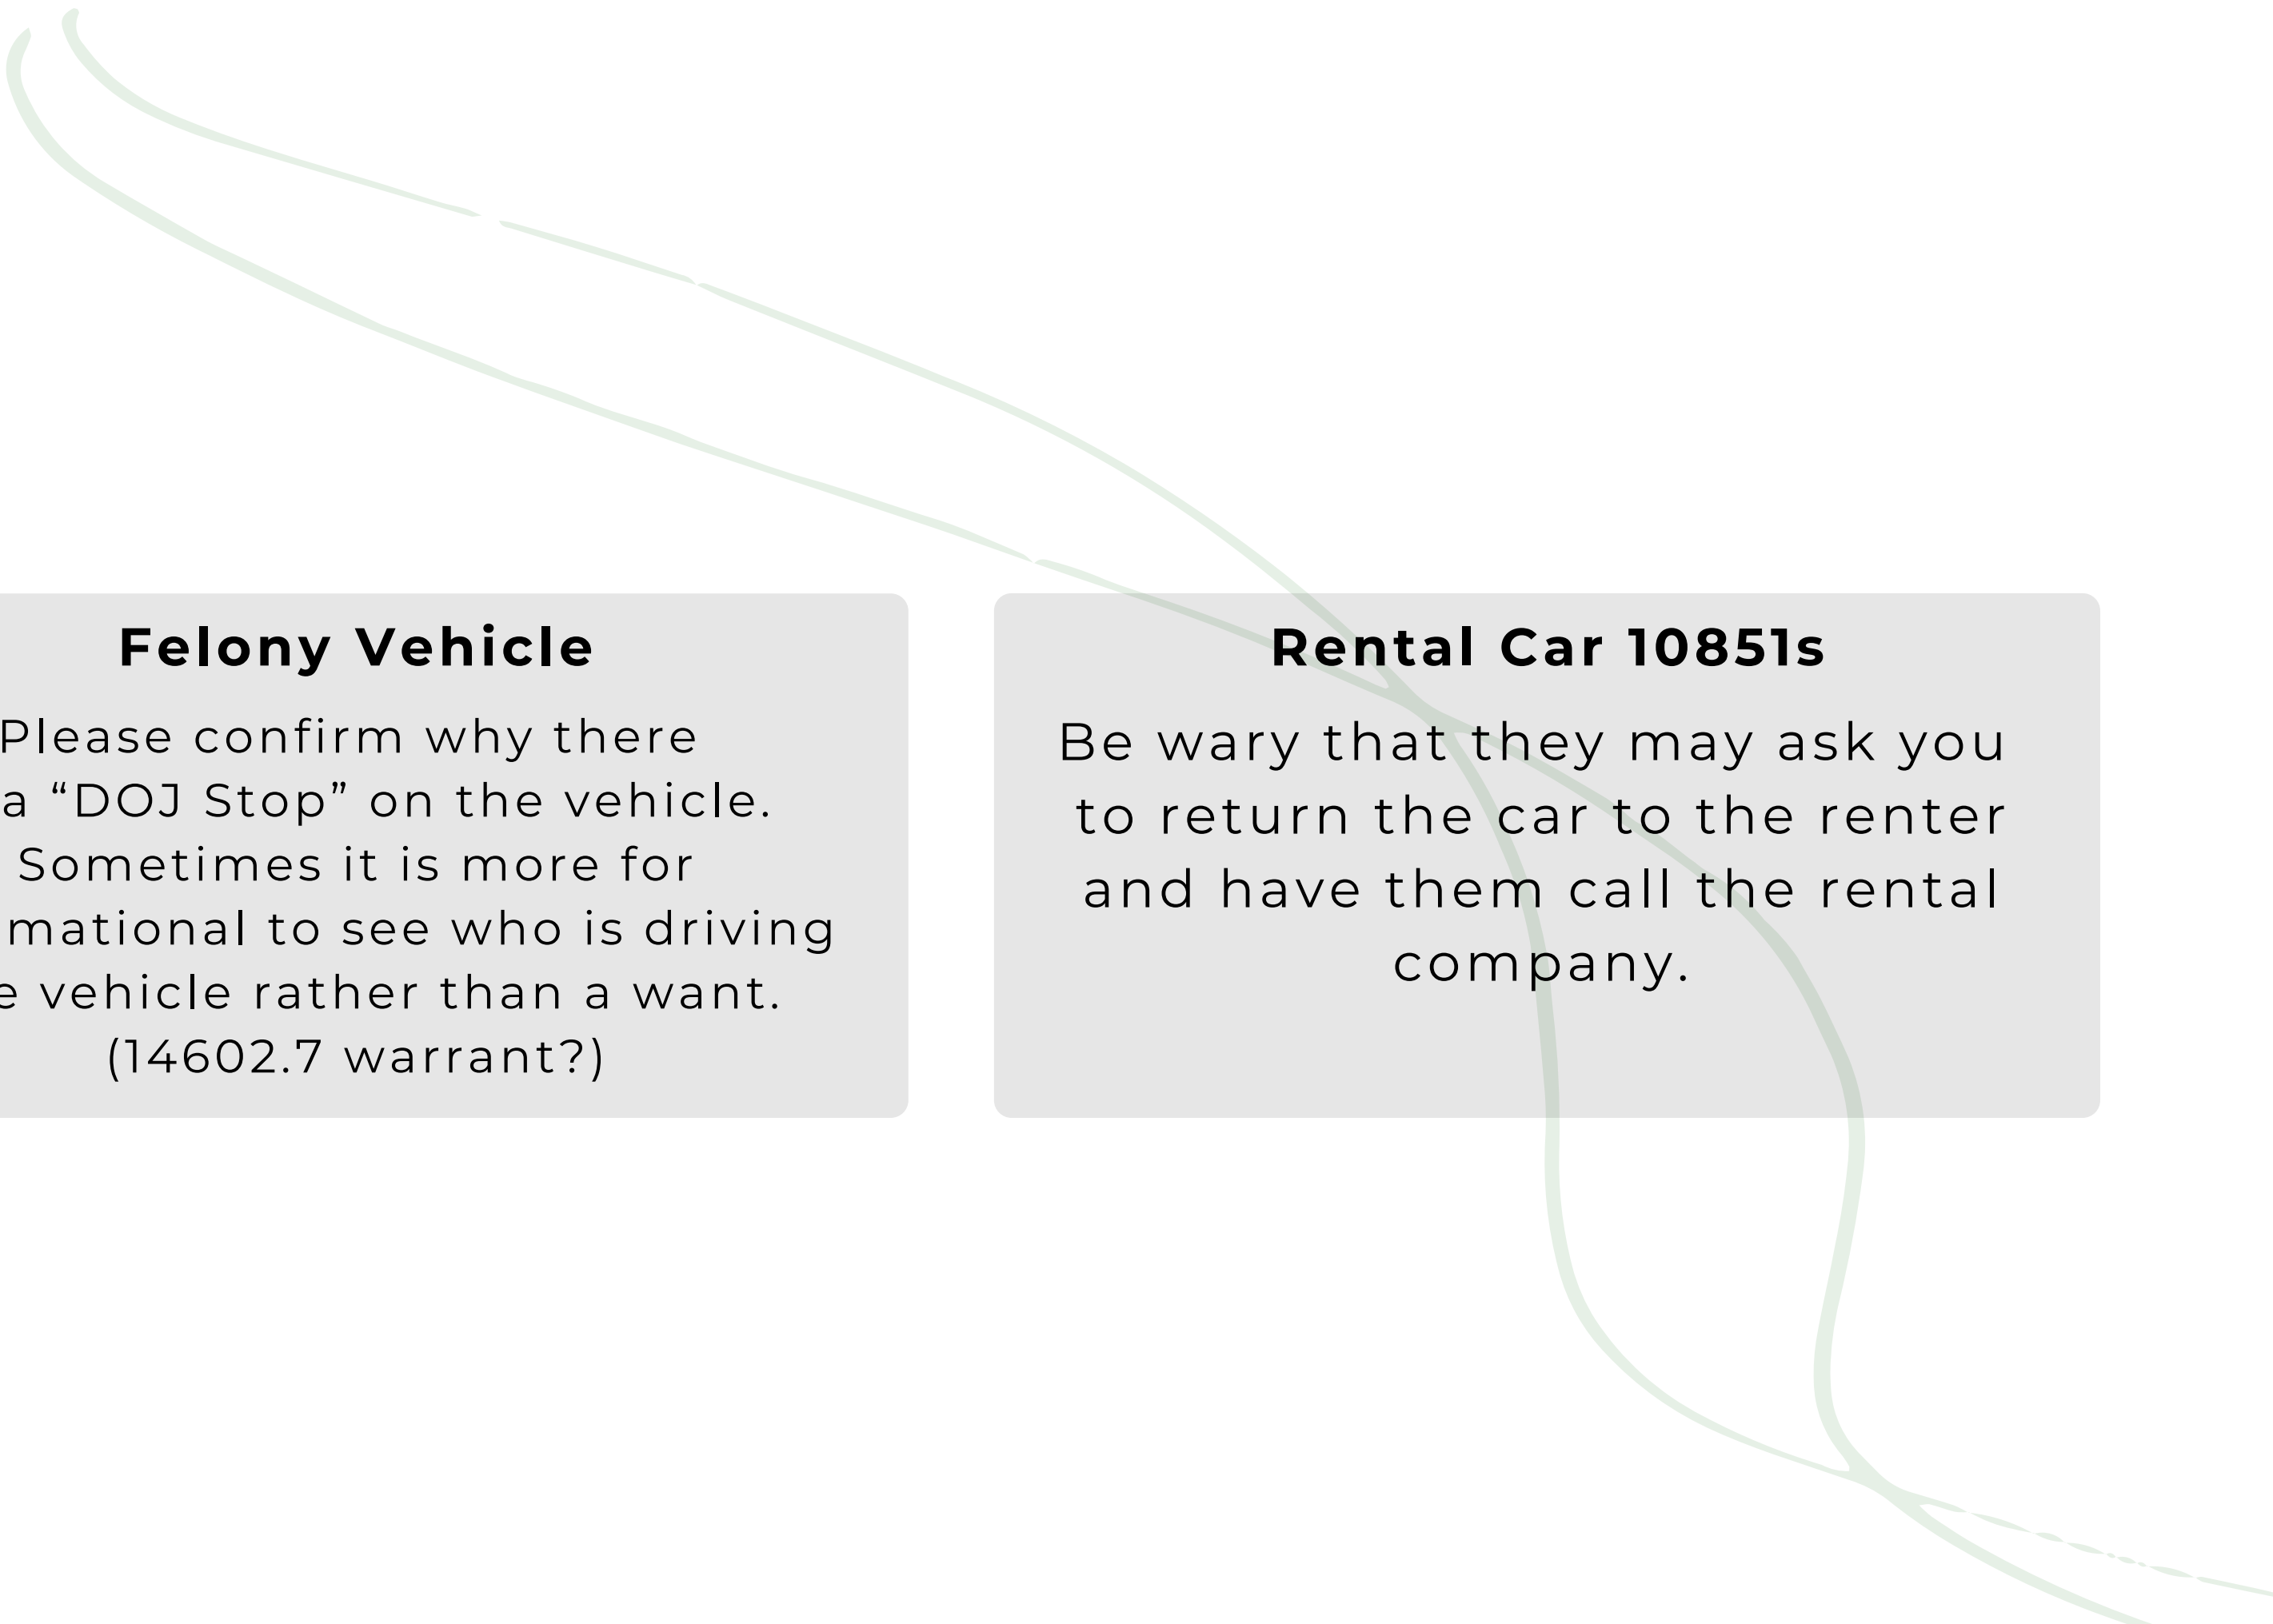

Select “Devices” and select which cameras you’d like to receive alerts from.

Selecting Cameras for Alerts

To ensure you receive our alerts,
be sure to check the boxes for:

- San Mateo CA PD
- San Mateo CA PD (Flex)
- Hillsdale Shopping Center
- Lakewood Circle
- Mariners Green 2
- Ridgecrest Terrace
- Home Depot - #0632

A decorative green wavy line starts at the top left, curves down and to the right, then curves back down and to the left, ending at the bottom right. It passes behind the two text boxes.

Felony Vehicle

Please confirm why there is a “DOJ Stop” on the vehicle.
Sometimes it is more for informational to see who is driving the vehicle rather than a want.
(14602.7 warrant?)

Rental Car 10851s

Be wary that they may ask you to return the car to the renter and have them call the rental company.

Cameras will capture most vehicle plates but not all

Several variables include:

- License plate placement
- Large vehicles blocking
- Speed (75 MPH)
- Weather
- Paper dealer plates
- Black license plates

Flock Searches

****IMPORTANT****

**We MUST enter
an incident or
case number AND reason
for every inquiry**

- You can use the inc/case number as the reason.
- Incident/Case number can be from another agency.
- If from another agency, be sure to notate which agency the incident number belongs to.

The screenshot displays the FlockOS search interface. At the top is a navigation bar with links: Search, Alerts, FlockOS, VMS, Devices, Sharing, Insights, Evidence, Admin, Planning Portal, and Back to Legacy. Below this is a search bar with a magnifying glass icon and a dropdown arrow. To the right of the search bar are a notification bell icon with '0' and a back arrow. The main search area is divided into sections: 'Investigative Purpose' with fields for 'Offense Type *' (a dropdown menu) and 'Case Number' (a text input), both marked as '*Required Field'; a 'Reason *' field (text input) marked as '* Required Field'; 'Vehicle Details' with 'License Plate' (text input) and 'Plate State' (dropdown menu with 'Any' selected), both marked with an information icon; checkboxes for 'Include Partial Matches' and 'CA Lookup' (marked with an information icon); 'Vehicle Fingerprint' (text input) marked with an information icon; and 'Location & Time' with a 'Location' field. At the bottom left is a 'Reset All' link, and at the bottom right is a 'Run Search' button.

Searches

- Agencies/entities allow us access to their cameras
 - Agency dependent decisions
- We are able to select other agencies' Flock cameras to find vehicles that run through the selected camera(s)
- Allows us to look up partial plates + vehicle descriptors + time frame to find a vehicle's entire plate

Lookup

- Agencies/entities opt in to share vehicle reads in Lookup
- Shows Fleet Axon hits
- Best way to search if you have an entire plate
 - ***We may see reads in Lookup that are not in the regular search inquiry - Not all agencies share their cameras

Tips & Tricks

Search with Wildcards

Wildcards can help narrow your search if you know most of a plate except for specific characters.

To use a wildcard, replace unknown characters with an asterisk *

Your search results will contain any plates that follow the pattern of your search. For example, searching for **ABC*234** could return any of the following:

- ABCD234
- ABC1234
- ABC234
- ABC-234
- ABCD1234

Search for a Partial Match

Partial searches can help narrow your search if you know only some of the characters on a plate.

To use a partial plate search, enter the characters you know.

Your search results will contain any plates that contain the sequence you entered. For example, searching for ABC could return any of the following:

- ABC1234
- 1234ABC
- 12ABC34

If you're unsure of a digit (ex. 8 or B), use a '?' to replace the unknown digit when searching

How to set up your Account

- After this training you will receive an email with a link which will bring you to *flocksafety.com*
- You can then create a password and enter in your work cell phone number to receive SMS Alerts
- You will then be brought to the home page of *flocksafety.com*, which defaults to their 'Search' feature

Flock Training & Certification

Patrol Officers are to complete the Alerts Certification Program & the Search Tool Certification (and pass assessments)

Dispatchers are to complete the Dispatch Certification (and pass assessment)

Once you log in, you will be brought to Flock’s search page. Look at the top right of your screen.
