San Mateo Police Department
Investigations Services

Date: May 27, 2021
To: All Sworn Personnel
From: Lt. Todd Mefford
Re: **ALPR Update**

Sergeant	_____
Lieutenant	_____
Field Ops Captain	_____
Support Captain	_____
Chief	_____

The ALPR Committee met to discuss, identify and address any issues related to our ALPR platforms. In general, there is a lack of consistency in the below listed areas, and this memo serves to correct them and further improve this program. The following is a summary of the discussed changes.

INCONSISTENT ENTRY OF “REASON” FOR SEARCH

It is mandatory that we conduct a quarterly audit of our ALPR usage and to ensure we remain in compliance, we need to enter a reason for each query.

1. Not consistent or not entered at all- required for audit
2. Query related to an incident - that incident or case number **MUST** be entered into the REASON section when the search is made
3. Often queries are made prior to a case or incident number issued and officers need to get the information ASAP. If there is no incident or case number, provide descriptive information like why and location
 - a. Examples: 10851 hit veh descript, 211-Laurie Meadows
4. Unacceptable: “Locate” and “Identify”. This leads to the question of “locate” or “identify” what and why. Additional descriptive information is required.

NEW DISPATCH LANGUAGE

Since rolling out the Flock ALPR platform, officers and dispatchers have modified the language originally outlined in our SOP. This is due to practical use of the Flock platform which has allowed us to effectively share the necessary information and remove the unnecessary. The following are the changes to ALPR communications:

1. “Fixed” or “mobile” is not necessary
2. No need to say you have a “visual” or “no visual.” “I will be on an area check” is an indicator to Dispatch that there is no visual of the vehicle. If/when Officers have a visual of the vehicle they will notify Dispatch.
3. Adopted Language
 - a. Officer: D87 ALPR hit at 3rd & Humboldt.
 - b. Dispatch: Go ahead
 - c. Officer: A123BCD, I will be on an area check
 - d. Dispatch: 10-4, the vehicle is coming back 10-30 out of San Francisco...(etc.)
 - e. Officer: 10-4

ENTRY OF OUTSIDE AGENCY INFORMATION INTO SMPD HOTLIST

1. Hotlist is important information sharing tool and officers are encouraged to use the Hotlist.
2. **All entries of information from outside agencies or TRAK fliers will be approved through a supervisor before they are entered.**

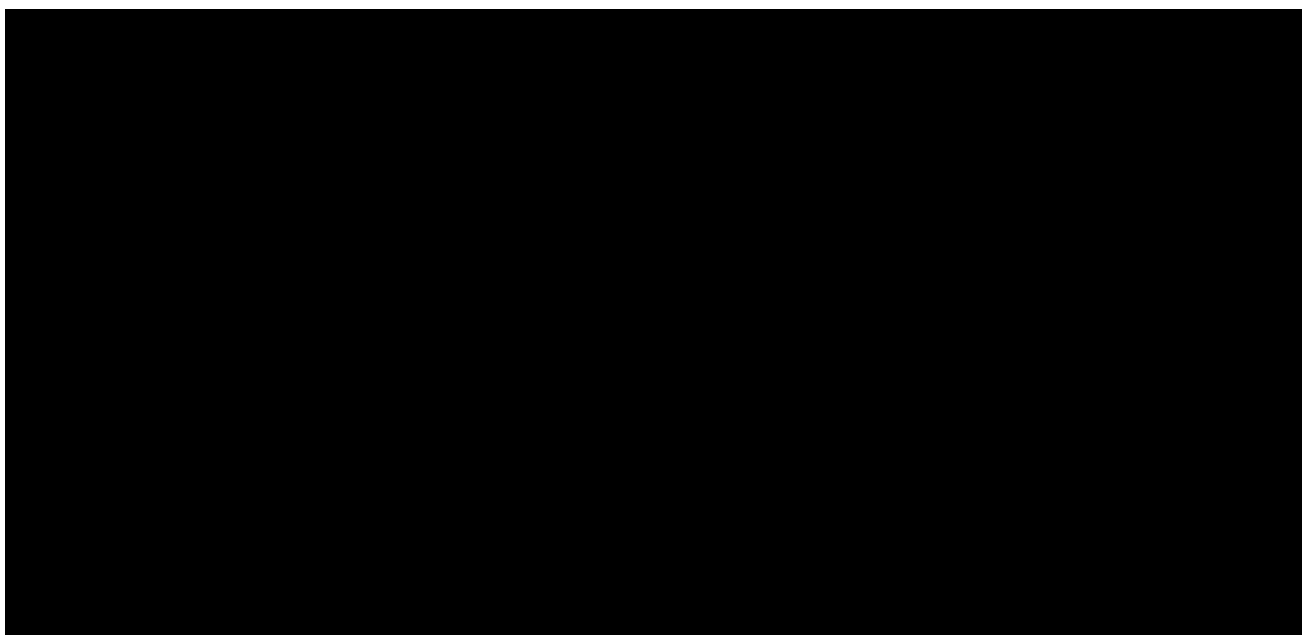

PIPs MOBILE ALPR CAMERAS MAINTENANCE SUSPENDED

The PIPs ALPR cameras are constantly plagued with operational issues and has caused a significant personnel commitment to keep them working. With the ALPR technologies now available to law enforcement, the ALPR committee had decided to sever our relationship with Neology, Inc., the parent company of PIPs, and are looking for updated reliable technology to replace our mobile ALPR cameras. We will not have ALPR support from PIPs moving forward. For equipment issues with the PIPs cameras, continue to contact George Herrera until PIPs removes their systems from our patrol vehicles.

EVIDENCE.COM ENTRIES

- 1) Find the matching hit you would like to upload. Click on the “Add to Evidence.com” button
- 2) Fill out the appropriate information.
USER: Enter your email as it will be uploaded to your Evidence.com profile. **Do not enter another officer’s email.**
TITLE: Enter case number with associated property number. [REDACTED]
CASE: **Do not enter the case number into the Case ID field.**
ID: Enter either the associated incident number or the case number.
- 3) It will appear in Evidence.com as uploaded by Flock ALPR.
- 4) After uploading your evidence, log back into Evidence.com and select the retention schedule to the appropriate time period.

Process for Uploading ALPR Photos from Flock to Evidence.com

3. Fill out the appropriate information.

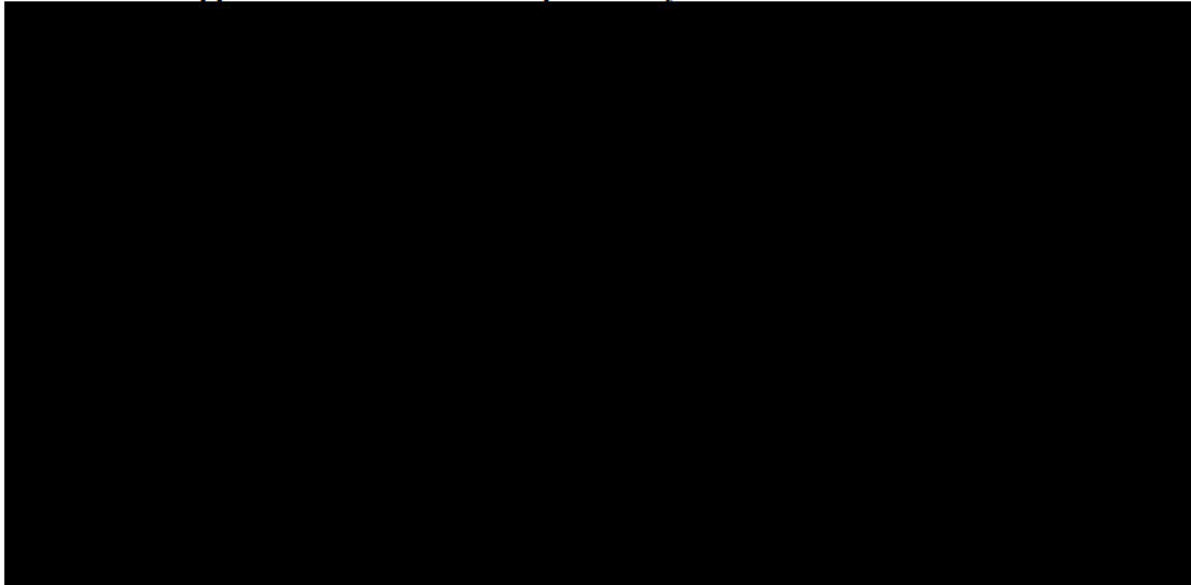

- a. USER: Enter your email as it will be uploaded to your Evidence.com profile. **Do not enter another officer's email.**
- b. TITLE: Enter case number with associated property number. [REDACTED]
- c. CASE: **Do not enter the case number into the Case ID field.**
- d. ID: Enter either the associated incident number or the case number.

The screenshot shows a web browser interface with a map in the background. Overlaid on the map is a white modal form titled "AXON Add to Evidence.com". The form contains the following fields and text:

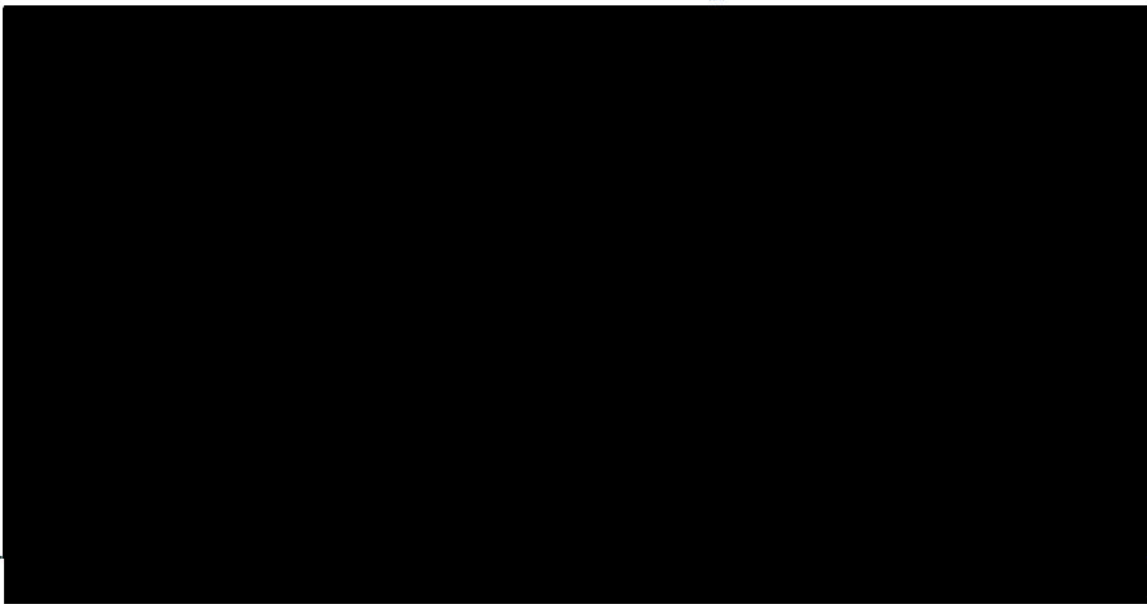

- User:** A dropdown menu with "Select..." and a downward arrow.
- Title:** A text input field.
- Case:** A dropdown menu with "Case ID (Optional)" and a downward arrow. Above this field, the text "DO NOT FILL THE CASE SECTION" is written in red.
- ID:** A text input field.
- At the bottom right of the form are two buttons: "Cancel" and "Submit Evidence".

The background map shows a street view with various location markers and labels, including "Enterprise Rent-A-Car", "Permanente San Medical Offices", "Water Car Wash", "BuyMe! Takeout + Delivery", and "Map data ©2021 Google".

4. It will appear in Evidence.com as uploaded by Flock ALPR

5. Evidence in Evidence.com

6. Update Retention Schedule
