Alex,

Axon will be in Richmond next week meeting with their councilmembers regarding the ALPR system. They have offered to make themselves available for us on Tuesday (all day) and Wednesday (until noon) to conduct council prep specifically on Axon 's ALPR platform.

I've attached the overview document they provided, which outlines how they normally structure these educational sessions. The intent is to give councilmembers a short Q&A opportunity so they can get familiar with the ALPR program and ask any questions they may have. Axon can meet individually or with up to two members at a time.

Given the short notice, please let me know if this is something you'd like to take advantage of, or if you prefer we schedule this for another time.

Lt. Riccardi will serve as the point of contact for coordinating these sessions, and I've included him on this email.
