I'll take a look at this and provide an update analysis.
If i was wrong, I'll be the first to admit it…..but she admits here that the costs increase 4% per year - which was never discussed and is not the case with flock.

Chief Barberini,

It's come to my attention that there are some rumors floating around the Bay Area that our "first year free" offer is just pushing costs out to back years. I want to assure you that is **not** the case.

I've attached an excel spreadsheet here that better shows how your quote was comprised. Keep in mind that the **Lightpost** product is providing significantly more functionality than your current technology - and this therefore priced higher than the **Outpost** - which is more similar to what you have today but also provides livestreaming into Fusus and hardware refreshes throughout the contract.

AXON implemented a 4% year-over-year inflation to all of our products back in 2023 - so that's why the prices raise by 4% each year. Some departments choose to split total cost evenly, which SMPD did for the larger AXON Contract in 2025. Maybe that's where some confusion lies in the yearly increase but, I think the 4% raise helps agencies better plan for budget post-contract.

Looking at a recent flock contract with Sonoma County - looks like they are charging $3,000 per cam/per year - which our price for Outpost will not reach until 2034.

We are excited and eager to open up LPR sharing very soon, where you will see an immediate network grow between all of the agencies in the Bay Area already running Fleet3 Mobile LPR:

Chief Barberini,

Quote is attached here for the LPRs. Please let us know what else you need here - happy to support.

Thank you,
Tierney
