Thank you, LT.

Please also see attached for the updated quote to include:

- (54) Outpost + TAP. This includes (5) additional donor cams as well for $0
- Start date of Sept. 2026 with no billing until Jun 2028 (first two years free)
- Billing starting in 2028 would be $2,739 per cam/per year including tax and goes up 4% annually to account for inflation
- Program includes **two** hardware refreshes, one half way through the contract and one at the end
- Program also includes live-streaming into Fusus

Also attached a one-pager that explains everything around data control.

We are happy to review all the capabilities on the upcoming call. @Patrick Newton can you please provide some days/times that work for you?

Thanks!
Tierney

Tierney, I am looping in Lieutenant Steve Casazza who is running our ALPR project so we can set up a demo in order to bring him up to speed. Can we look at some dates next week for an Axon ALPR demo? Thanks

Anthony
