Anthony, Kelly, and Steve.

I wanted to share SSFPD's (2) Staff reports and the PowerPoint she presented about Axon, in case they might help in any way with our presentation. These were shared with me by Lieutenant Amy Sarriotti who also offered to chat with anyone about how their presentation went if any of you wanted to personally reach out to her.

Thanks,
Jen

Subject: RE: DRAFT Axon ALPR AR - Council 10/5

I think it is fine except for "public disclosure of San Mateo ALPR data". One might argue the release of those six searches was unauthorized public disclosure. Unless I am misreading it.

Subject: RE: DRAFT Axon ALPR AR - Council 10/5

Does something like this make sense:

Data Privacy and Security Considerations
Recently, there has been public discussion and concern regarding the potential sharing or accessibility of ALPR information across jurisdictions. The San Mateo Police Department is aware of information contained in an audit that references six searches associated with Department personnel. Based on the information currently available to us, the audit does not indicate that these searches involved unauthorized access to San Mateo's stored ALPR data, access by federal or out-of-state agencies, or the public disclosure of San Mateo ALPR data.

The Department continues to review the available information to ensure the circumstances are accurately understood. SMPD will continue to manage access to and use of ALPR information in accordance with applicable law, Department policy, and established data-sharing restrictions.

Subject: Re: DRAFT Axon ALPR AR - Council 10/5

Chief,

From what I am reading in the NCRIC response, it seems to me that an audit was leaked and made available on a public site. In that audit, there were 6 searches done by our officers, but no mention if those searches were against our stored data, Federal agencies searching our data, agencies outside of CA accessing our data, or even if any of our stored data was made publicly available.

Thanks,

Steve

Subject: FW: DRAFT Axon ALPR AR - Council 10/5

Kelly and Steve,

Please see the attached draft AR. Based on what we've recently learned from the NCRIC, are we still comfortable with this language in the are:

Data Privacy and Security Considerations
Recently there has been public discussion and concern expressed regarding potential sharing or accessibility of ALPR information across jurisdictions. The San Mateo Police Department has no known instances of unauthorized or inappropriate out-of-state or federal access to the City's ALPR data. The Police Department will continue to manage access to ALPR information in accordance with applicable law and local policies.

Please let me know what you think.

Thanks,

Ed

Subject: DRAFT Axon ALPR AR - Council 10/5

Hi Chief,
Please take some time and thoroughly review the attached DRAFT of the AR for the proposed Axon ALPR Amendment.

What am I missing?
What should I add?
Any change in tone/emphasis?
This one was a challenge and I am genuinely looking for feedback here!

This will be due to Bahar by Thursday.

Thanks,
T
