Subject: California Public Records Request :: W013271-081926

Body:

RE: PUBLIC RECORDS REQUEST of August 19, 2026, **Reference # W013271-081926.**

Dear Brian C,

The City received the below records request from you on August 19, 2026.

Pursuant to the California Public Records Act (Gov. Code § 7920.000 et seq.), I request the following records from the San Mateo Police Department. This request seeks existing records only (Gov. Code § 7922.530).

Context

As you are aware, the Department's July 4, 2026 correspondence states that "when the San Mateo Police Department becomes aware that an agency is not complying with applicable state law, the department assesses whether to discontinue data sharing with that agency," and that the City may act on such information "[r]egardless of how the City becomes aware." As you are also aware, at the June 4, 2026 meeting and in correspondence of June 22 and July 12, 2026, I brought to the Department's attention searches that Stockton Police Department's published audit records attribute to requests from the U.S. Marshals Service, and at least one search that Yuba City Police Department's records attribute to a DEA inquiry, and noted their potential reach into the regional sharing network that included San Mateo data.

This request covers June 4, 2026 through the date of production. Items 1 and 3 are scoped to named counterparties and this subject; no review of any general email corpus is requested. To assist the search: responsive records may use terms such as "Stockton," "USMS," "U.S. Marshals," "Yuba City," "DEA," "federal," or "on behalf of." This list is illustrative only; the request is not limited to records containing these terms.

Records requested:

- 1. Communications between the Department and Stockton Police Department or Yuba City Police Department referencing searches conducted on behalf of, or at the request of, federal agencies.*
- 2. Records of any assessment conducted under the practice described in the Department's July 4, 2026 correspondence with respect to Stockton Police Department or Yuba City Police Department — including records reflecting the assessment's initiation, the criteria applied, and its disposition.*
- 3. Communications between the ALPR Committee Captain or authorized designee (per the Department's records, Lt. Steve Casazza) and Flock Safety referencing the searches described in the Context section or referencing federal-agency-related search activity by partner agencies.*
- 4. Any record of review of Stockton Police Department's or Yuba City Police Department's status as a recipient of San Mateo ALPR data in connection with changes to the Department's sharing configuration during July*

and August 2026.

5. Any network audit report or equivalent record listing searches conducted by other agencies against San Mateo ALPR data, for any period; and any request by the Department to Flock Safety for such a report, together with any response.

If no records are located for any individual item, please respond to that item separately and continue processing the remaining items.

Each item is severable. If any single item requires additional processing time, please respond to the remaining items on the statutory timeline rather than extending the request as a whole.

If any portion is denied, please provide specific exemption citations per Gov. Code § 7922.540 and identify the withheld record type and volume. Exact copies of existing records are requested per Gov. Code § 7922.530(a); this request does not ask the Department to create any record that does not exist — where none exists, a statement to that effect is requested.

Thank you.

We are reaching out to inform you that a legal review of your request was completed by our City Attorney's office, in accordance with Government Code § 7922.525(b). During this review, it was determined that portions of the records you have requested are exempt from disclosure. Please refer to the attached letter for the Department's full response.

Sincerely,

Kelly O'Keefe
Police Technical Services Administrator
