Built to focus on data minimization, purpose limitation, and transparency.

Myth

Flock has been hacked.

Fact

Flock's cloud environment has never been breached. Flock invests in a strong security

Myth

Flock sells and/or shares customer data.

Fact

Your community owns 100% of your data and it will never be sold. Only your agency decides who to

posture, including adhering to NDAA, SOC2 (Type II), ISO 27001, ISO 27018 FedRAMP 20x, and Higher Education Community Vendor Assessment Tool (HECVAT) compliance. Additional security precautions include Role-Based Access Controls, data encrypted at-rest and in transit, required Multi-Factor Authentication, and regular penetration testing.

share your data with, not Flock. Flock Safety does not publicly release agency search data. Flock does not operate or support any public-facing searchable database of law enforcement lookups, and we do not provide license plate search histories to websites or third parties without the agency's knowledge and authorization. Other agencies who you share footage with have been responding to FOIA requests and sharing this search data.

Myth

My data is fed into a national database.

Fact

Each agency controls access to its own data. Agencies may choose to share information through a broader network, but nothing is shared automatically. Participation is opt-in, governed by defined agreements, and limited to lawful investigative purposes.

Myth

Flock cameras use facial recognition.

Fact

Flock cameras do not use facial recognition technology. Searches are based on vehicle characteristics, and not identity. Flock cannot recognize, identify, or track individuals. It is purpose built for specific public safety investigations, not to monitor people.

More Info

Yuba County SO -Assist in Bicycle Recovery

A recent bicycle theft investigation demonstrates how FLOCK (ALPR) technology can assist deputies in solving crimes and recovering stolen property.

Deputies investigating a stolen bicycle obtained surveillance video showing the suspect leaving the residence in a vehicle. The license plate was not readable in the available video.

Using FLOCK, deputies conducted a search based on the description of the vehicle and the approximate time and location of the crime. The search identified a vehicle matching the description in the area at the time of the theft and provided a readable license plate.

Deputies used that information to identify the registered owner and respond to the associated address. The stolen bicycle was located in plain sight in the front yard and was recovered and returned to its owner before the end of the deputy's shift.

This case is an example of how FLOCK ALPR can provide an investigative lead when traditional surveillance footage may not provide a readable license plate.

"I'm confident if it had not been for the FLOCK camera's it would have been more difficult to solve this case."-YCSO Deputy
