Request Created on Public Portal

On 5/4/2026 4:47:09 PM, San Mateo Public Records Center wrote:

Thank you for your interest in public records of the City of San Mateo. Your request was received by the City of San Mateo on 5/4/2026 and given the reference number **W012672-050426** for tracking purposes.

Record(s) Requested: **Pursuant to the California Public Records Act (Gov. Code § 7920.000 et seq.), I request the following records from the San Mateo Police Department.**

This request seeks existing records only (Gov. Code § 7922.530; Sierra Club v. Superior Court (2013) 57 Cal.4th 157).

Context

SMPD Policy 463 and SOP 205 each impose pre-access training requirements on SMPD personnel, and each identifies a designated custodian for the resulting training records:

- Policy 463.4(d) (published December 12, 2025): "No member of this department or authorized designee shall operate ALPR equipment or access ALPR data without first completing department-approved training. This training is further described in SOP 205."**
- Policy 463.9 (TRAINING): "The ALPR Administrator shall ensure that members receive department-approved training to operate or access the ALPR system (Civil Code § 1798.90.51; Civil Code § 1798.90.53). This training is further described in SOP 205. The department POST Coordinator will maintain all training records in METR."**
- SOP 205.3 (ALPR OPERATOR TRAINING): "Prior to the operation of the our Department approved ALPR system, any person operating a system shall complete Department approved training. The**

training will be coordinated by the Department Training Division ... Records of this training shall be maintained by our Training Division."

- SOP 205.4 (ALPR END-USER TRAINING): "Prior to accessing the ALPR platforms to review data as end-users, any person doing so shall complete Department approved training. The training will be coordinated by the Department Training Division ..."

These provisions identify three custodial locations for SMPD-personnel training records: the Department Training Division (per SOP 205.3 and 205.4), the POST Coordinator's METR records (per Policy 463.9), and the ALPR Administrator's records of having ensured training (per Policy 463.9).

Scope. This request seeks records concerning training of internal SMPD personnel — operators and end-users employed by or assigned to SMPD. Training of personnel from external agencies that have been granted access to SMPD's ALPR data was the subject of PRA W012174-021826 Item 4 and is not being re-requested here.

Records requested — covering the period from October 25, 2019 (earliest date SOP 205 mandated operator training, per SOP 205 versions produced under W012198-022326) through the date of production:

1. All records reflecting completion, attendance, or participation by SMPD personnel in operator training conducted under SOP 205.3 — including rosters, sign-in sheets, Training Division logs, METR entries, certificates of completion, and any equivalent record reflecting that a named SMPD member completed the required operator training and the date on which it was completed.
2. All records reflecting completion, attendance, or participation by SMPD personnel in end-user training conducted under SOP 205.4 — including rosters, sign-in sheets, Training Division logs, METR entries, certificates of completion, and any equivalent record reflecting that a named SMPD member completed the required end-user training and the date on which it was completed.
3. Training curriculum, materials, slide decks, instructor notes, lesson plans, scripts, handouts, recorded videos, or other instructional records used to deliver SOP 205.3 operator training or SOP 205.4 end-user training, in any version that has been used to date. SOP 205.3 and SOP 205.4 each enumerate required training elements; this item covers the materials by which those elements are delivered.
4. Any records of training, briefings, supplementary training, written notices, roll-call updates, or other communications issued to ALPR operators or end-users following the December 22, 2025 revision of Policy 463 — including but not limited to materials addressing the revised policy provisions, and records identifying which SMPD personnel received that update.
5. Any records of training acknowledgments, certifications, attestations, or signed receipts by SMPD personnel concerning ALPR training under SOP 205.3, SOP 205.4, or Policy 463 — including signed acknowledgments that the trained member received and reviewed Policy 463 or SOP 205 in any version.
6. Records identifying the individual(s) who have served as the "ALPR Administrator" referenced in Policy 463.9 since that role's incorporation into Policy 463 (or its predecessor designation), the start and end dates of each assignment, and any records reflecting how the ALPR Administrator has discharged

the obligation under Policy 463.9 to "ensure that members receive department-approved training" — including records of the ALPR Administrator's review or verification of training-completion records, requests by the ALPR Administrator to the Training Division or POST Coordinator for training-completion data, or any tracking, dashboard, or status report the ALPR Administrator maintains or has produced regarding training compliance.

7. Any records reflecting whether SMPD policy and applicable state law are taught as training content in SOP 205.3 operator training or SOP 205.4 end-user training, including: (a) portions of training materials (slide decks, lesson plans, instructor notes, handouts, recorded sessions, written quizzes or knowledge checks) that present, summarize, or quote Policy 463, SOP 205, or the agency's usage and privacy policy; (b) portions of training materials that present, summarize, or quote Civil Code §§ 1798.90.5–1798.90.55 — the statutory provisions Policy 463.9 cites as the authority for its training requirement — or any other state law applicable to operator or end-user use of ALPR information; and (c) any review, assessment, gap analysis, or internal communication addressing whether existing operator or end-user training content adequately covers SMPD policy or applicable state law, including any decision to add, remove, or revise such coverage.

If no records are located for any individual item, please respond to that item separately and continue processing the remaining items.

Anticipated exemption issues:

- Penal Code §§ 832.7–832.8 (peace officer personnel records). The training-completion data and curriculum requested here are not "personnel records" within the meaning of Penal Code § 832.8(a) — they do not concern personal data, medical history, employee benefits, employee advancement, or appraisal/discipline of any officer's job performance. Training-completion records that document the agency's compliance with the mandatory-training provisions of Civil Code §§ 1798.90.51 and 1798.90.53 are operational compliance records of the ALPR program. To the extent any individual record contains both compliance-tracking content and personnel-record content, Government Code § 7922.525(b) requires segregable production.
- Civil Code § 1798.90.55(b). The statute restricts sharing of ALPR information (license-plate reads, search results, hit notifications). Training-completion records, training curriculum, and training-administration records are not "ALPR information" as defined in Civil Code § 1798.90.5(c).
- Gov. Code § 7923.600 (investigation records). Training-administration records concern the operational readiness and compliance of agency personnel; they are not files compiled in connection with any particular investigation.
- Records held outside the Department. Per Policy 463.9, the POST Coordinator maintains training records in METR. METR records concerning SMPD personnel maintained on SMPD's behalf are SMPD records within the meaning of Gov. Code § 7920.530.

If any portion is denied, please provide specific exemption citations per Gov. Code § 7922.540. If volume is burdensome, please contact me to narrow scope rather than denying categorically.

Thank you.

The request is being forwarded to appropriate department(s) for processing.

Monitor request progress at the link below. The City will email you when the request is complete. Thank you for using the San Mateo Records Center.
