Thank you for your interest in public records of the City of San Mateo. Your request was received by the City of San Mateo on 5/4/2026 and given the reference number **W012665-050426** for tracking purposes.

Record(s) Requested: **Pursuant to the California Public Records Act (Gov. Code § 7920.000 et seq.), I request the following records from the San Mateo Police Department.**

This request seeks existing records only (Gov. Code § 7922.530; Sierra Club v. Superior Court (2013) 57 Cal.4th 157).

Context

This request is a temporal follow-up to W012461-040226 (closed 2026-04-08), which sought audit records produced under Policy 463.10 (added to Policy 463 December 22, 2025) and SOP 205.5.1 (in effect under SOP 205 since at least 2019).

§ 463.10 (ALPR Data Search Audits) provides: "It is the responsibility of the ALPR Committee Captain or the authorized designee to ensure an audit is conducted of ALPR data searches at least monthly for internal ALPR users and quarterly for external CA public agency users. The audit shall be documented in the form of an internal department memorandum to the Chief of Police. The memorandum shall include any data errors found so any such errors can be corrected. After review by the Chief of Police, the memorandum and any associated documentation shall be filed and retained."

Two distinct audit populations are required: (a) internal ALPR users (SMPD personnel) on a monthly cadence, and (b) external CA public agency users (other agencies with access to SMPD's ALPR data) on a quarterly cadence. Both audits are internal SMPD memoranda to the Chief. "Internal" and "external" refer to who is audited, not who conducts the audit.

Under W012461, SMPD produced four monthly internal audit memoranda addressed to the Chief of

Police (December 2025, January 2026, February 2026, March 2026), dated within 1–14 days after the audited month. The memoranda contain language describing audits of "internal and external ALPR usage" — appearing to address both audit populations on a monthly cadence — but their substantive content reviews SMPD's sharing configuration (verification that out-of-state sharing is revoked, that the "Revoke Out-of-State Sharing" setting is selected, that no sharing occurs with federal law enforcement). § 463.10 specifies "audit of ALPR data searches"; the produced memoranda do not appear to review search activity conducted by external CA public agency users with access to SMPD's data.

Policy 463 and SOP 205.5.1 establish distinct audit obligations — different recipients, scope, and criteria — each producing distinct records. This request is for Policy 463 records only; SOP 205.5.1 records are sought separately.

Records requested — covering the period from April 8, 2026 (date W012461 closed) through the date of production:

1. The April 2026 monthly audit memorandum produced under § 463.10 covering ALPR data searches by internal ALPR users, addressed to the Chief of Police. Per the dating pattern in the four memoranda produced under W012461, the April 2026 memorandum is expected to have been completed in early May 2026.
2. Any May 2026 monthly audit memorandum produced under § 463.10 covering ALPR data searches by internal ALPR users, if completed by the date of production.
3. Any audit memorandum, report, or analysis produced under § 463.10 that reviews ALPR data searches conducted by external CA public agency users — i.e., the quarterly audit § 463.10 requires for that user population. The four monthly memoranda produced under W012461 review SMPD's sharing configuration but do not appear to review external CA public agency users' search activity. If § 463.10's external-user audit obligation is satisfied by the monthly memoranda already produced, please identify the specific elements of those memoranda that constitute review of external CA public agency user search activity (as distinguished from review of SMPD's sharing configuration).
4. Any records reflecting changes in § 463.10 audit practice, audit methodology, audit recipient, or audit scope made since April 8, 2026 — including any internal communications, SOP revisions, or policy memoranda directing or describing such changes.
5. Any records identifying searches, entries, or user activity flagged, determined to be non-compliant with Policy 463, or otherwise singled out for review during the audits being requested in items 1–3 — including the underlying entry, the basis for the non-compliance finding, the date of the finding, and any corrective action taken. § 463.10 provides that "the memorandum shall include any data errors found so any such errors can be corrected"; this item seeks both the data errors § 463.10 requires to be documented in the memoranda and the underlying flagged entries.
6. Any platform exports, search logs, user-activity reports, or other records the auditor reviewed during the audits being requested in items 1–3 to assess access, search reasons, and compliance with Policy 463.
7. Any email correspondence between Lieutenant Casazza (or any successor auditor) and the Chief of

Police regarding § 463.10 audit findings, scope, or methodology, from April 8, 2026 through the date of production.

8. Any records produced, created, generated, or captured by the auditor during the conduct of each § 463.10 audit being requested in items 1–3 — including review notes, screenshots, intermediate query results, draft memoranda, working calculations, or any other records reflecting the audit's review process. § 463.10 provides that "after review by the Chief of Police, the memorandum and any associated documentation shall be filed and retained"; this item seeks the "associated documentation" § 463.10 expressly requires to be filed and retained.

If no records are located for any individual item, please respond to that item separately and continue processing the remaining items.

I anticipate filing similar requests for each subsequent monthly audit memorandum produced under § 463.10 as it is completed (typically within 1–14 days after the audited month, per the dating pattern in the four memoranda produced under W012461). If SMPD adopts a routine practice of publishing each monthly audit memorandum on its public-facing transparency page following completion, that would obviate the need for individual records requests for these records.

If any portion is denied, please:

- 1. provide specific exemption citations per Gov. Code § 7922.540;**
- 2. for any "no responsive records" response to item 3, please confirm whether SMPD has, since § 463.10 took effect on December 22, 2025, conducted any substantive review of ALPR data searches by external CA public agency users — and if so, identify the documenting memoranda by date; and**
- 3. for any denial of items 5, 6, or 8 based in whole or in part on Gov. Code § 7923.600, Civil Code § 1798.90.55(b), or any other exemption applicable to portions of the responsive records, please confirm that SMPD performed the segregability analysis required by Gov. Code § 7922.525(b) and produce any reasonably segregable non-exempt portion. For each record category where SMPD concludes no segregable non-exempt portion exists, please identify the specific basis for that conclusion. Redaction of plate numbers, vehicle data, individual identifiers, or other potentially exempt content is acceptable; the producible non-exempt portions of items 5, 6, and 8 include at minimum administrative metadata such as search IDs, timestamps, offense-type categories, and indicators of whether required justification fields were populated.**

Thank you.

The request is being forwarded to appropriate department(s) for processing.

Monitor request progress at the link below. The City will email you when the request is complete. Thank you for using the San Mateo Records Center.

To monitor the progress or update this request please log into the [San Mateo Records Center](#).
