Paul,

Starting today, you can integrate live video into your Flock Safety experience. Connect third-party IP cameras from across your jurisdiction (public or private) and display them alongside Hot List alerts, AVL data, traffic conditions, and more.

As a part of this exciting release, we're offering all Flock customers 4 live video integrations for free - no strings attached

Experience what live video can do for your agency at no cost:

- Access live on-scene video from your Dispatch Map and Live Video Gallery for better incident response and management
- Unlock enhanced situational awareness for more leads, faster incident response, and increased officer safety
- Build stronger cases with video replay, 7-day video retention, and MP4 downloads

Start for free, launch in minutes, and drive results immediately. Schedule your free integration by clicking the button below.
