Hello Paul,

Here is a guide to pulling data out of Flock:

<https://help.flocksafety.com/en/article/public-records-faqs>

If you need more help let me know I will be free around 330 today.

Best,

Graham Carter

Hey Graham,

I have a PRA request for these info requested. Are these 2021 numbers something we can even run since our data is stored only for 3 months?

B1. The aggregate number of "detections" collected during 2021.

B2. The aggregate number of "hits" during 2021.

B3. The aggregate number of "detections" from January 1, 2022 until the date this request is processed. If your

agency has a retention period shorter than 1 year, please provide whatever data is available based on your retention period. For example, most Flock Safety systems may not have this data beyond 30 days.

B4. The aggregate number of “hits” from January 1, 2022 until the date this request is processed. If your agency has a retention period shorter than 1 year, please provide whatever data is available based on your retention period.

A description of the information technology and physical location in which the records exist.

C2. Assist us identifying records and information that will help the public understand how ALPR data and hotlists are shared, how much data is collected year-to-year, and how much of that data matches a hot list; and

C3. Provide suggestions for overcoming any practical basis for denying access to the information sought.
