Half Moon Bay plans for license plate readers

Program will be funded entirely through grant money

Amid concerns about privacy and misuse but with the aim of combating crime, the Half Moon Bay City Council is moving forward with the installation of seven automated license plate readers with a 3-2 vote at its April 16 meeting.

Councilmember Deborah Penrose said that she was supportive of what would be a two-year pilot program for the city, funded entirely by the COPS grant, a federal program for community policing solutions.
