Flock has been hacked.

Ventura CA PD

Ventura County District Attorney's Office CA

Flock's cloud environment has never been

breached. Flock invests in a strong security

posture, including adhering to NDAA, SOC2 (Type

1), ISO 27001, ISO 27018 FedRAMP 20x, and Higher

Education Community Vendor Assessment Tool

(HECVAT) compliance. Additional security

precautions include Role-Based Access Controls,

data encrypted at-rest and in transit, required

Multi-Factor Authentication, and regular penetration

testing.

Your community owns 100% of your data and it will

never be sold. Only your agency decides who to

share your data with, not Flock. Flock Safety does

not provide release agency search data. Flock does

not operate or support any public-facing

searchable database of law enforcement lookups,

and we do not provide license plate search

histories to websites or third parties without the

agency's knowledge and authorization. Other

agencies who you share footage with have been

responding to FOIA requests and sharing this

search data.

Myth

Myth

My data is fed into a national database.

Fact

Each agency controls access to its own data. Agencies may choose to share information through a broader network, but nothing is shared automatically. Participation is opt-in, governed by defined agreements, and limited to lawful investigative purposes.

Flock cameras use facial recognition.

Fact

Flock cameras do not use facial recognition technology. Searches are based on vehicle characteristics, and not identity. Flock cannot recognize, identify, or track individuals. It is purpose built for specific public safety investigations, not to monitor people.
