---

Good morning Trent,

I am reaching out since Kim Honciano's out-of-office email designated you as an alternative contact.

We are finalizing QPR 2s this week and still need ORT FTE metrics for 2 Burlingame PD officers assigned to retail walk beats (QPR item E.3; please see attached and emails below).

Please let us know if you can provide the FTE percentages or share this email with someone who can do so.

Kindly,

Earl Morales

Hello Kim,

Thank you sharing Burlingame PD's confirmation, and please be sure to also share their ORT FTE percentages as soon as possible but ideally by 5pm PST 6/10/24. We can also apply FTE revision on your behalf.

Kindest regards,

Earl Morales

Subject: RE: ORT Prevention - Quarter 2 Progress Report resubmission

Hi Earl,

Burlingame replied that the two FTEs were implemented prior to the reporting period, before the grant. So the table for MOU agreements can be updated to zero. I'm verifying their FTE percentage for the ORT count table.

Thanks.
Kim

Hello Kim,

Thank you so much for addressing our requests and inquiries for QPR 2.

In regard to FTE for ORT activities, you may exclude FTE time for detectives/investigations that are part of generalized assignments. However, if the two Burlingame PD officers are assigned to the retailers specifically for walk beats to reduce ORT, please include their FTE time.

Once Burlingame PD provides verification, please apply revisions and resubmit as soon as possible. We can also make the corrections, whichever is most convenient for you.

Many thanks,

Earl Morales

Hi Earl,

Please see the attached updated report. One item still outstanding is a reply from Burlingame PD to verify the timing of their two assigned officers. I'll update that as soon as I have a response.

I also embedded a question about the FTE for ORT – please see my comment in the attached.

Thank you!
Kim

Hello,

After consulting my supervisor Ashley (cc'd here) we cannot grant an extension but we can do a video call to go over our revision requests. Please let us know if you are available between 8:30am-11am tomorrow morning and if you have a preference for Zoom or Microsoft Teams.

Kind regards,

Earl Morales

Hello Stacey,

Thank you for bringing this update to our attention. I will have to consult my supervisor about an extension since we are on a tight turnaround to review and share data with the Governor's Office.

Please see the attached file for specific revision requests. We can have a video call tomorrow or Friday to go over requested revisions but we will update you in the meantime.

Thank you,

Earl Morales

Hi Earl,

Unfortunately, Kim is the primary grant manager of this grant and she left last week and will be out of the country for three weeks. Would you kindly be able to provide us an extension to complete the adjustments until 7/1/24? If not, I can try to look at the changes needed, but I'll need you to re-attach the file with your suggested corrections so I can try to look into this further. As I said, Kim is most familiar with this grant, so the extension would be our preference if possible. I'm also happy to jump on a video call so you can walk me through what is needed. I'm available tomorrow and Friday if you are able to do that.

Thanks,
Stacey

Good morning Kimberly,

I am following up on my previous email for a status update on SMCSO's resubmission of QPR 2 (please see prior emails for requested revisions).

We are seeking a resubmission as soon as possible as we are on a tight turnaround to screen QPRs and send data to the Governor's Office.

Please let us know if you have any questions.

Respectfully,

Earl Morales

SHERIFF'S OFFICE
SAN MATEO CO.

Organized Retail Theft (ORT) Prevention Grant Program | Quarterly Progress Report

PLEASE REVIEW CAREFULLY

Before completing this report, please review the *Data Reporting Guide* which provides due dates, reporting periods, a description of the progress reports, and a data dictionary with data compilation guidance, when necessary.

Grantee and Report Information

1. **Grantee:** San Mateo County Sheriff's Office
2. **Award Number:** 1172-23
3. **Reporting Period:** Quarter 2: 1/1/2024 – 3/31/2024, due May 15, 2024

Section A: Definitions of Key Terms

For each key term below, identify whether the specific definition provided (see the *Data Reporting Guide*) or a department specific definition was used. If a department specific definition was used, please use the text box provided to report the definition. If the key term is not applicable to the project, select the N/A option.

Organized Retail Theft (ORT)

1. Which ORT definition was used?

- ☐ N/A (skip items 1 through 4 in Metrics section)
- ☒ ORT definition provided.
- ☐ Department Specific ORT Definition. Please provide below and indicate how it differs from the definition provided:

Use this text box to provide the definition.

Motor Vehicle Theft (MVT) or Motor Vehicle Accessory Theft (MVAT)

2. Which MVT/MVAT definition was used?

- ☐ N/A (skip items 5 through 8 in Metrics section)
- ☒ MVT/MVAT definition provided.
- ☐ Department specific MVT/MVAT definition. Please provide below and indicate how it differs from the definition provided:

Use this text box to provide the definition.

Cargo Theft

3. Which cargo theft definition was used?

- ☐ N/A (skip items 9 through 12 in Metrics section)
- ☒ Cargo theft definition provided.
- ☐ Department specific cargo theft definition. Please provide below and indicate how it differs from the definition provided:

Use this text box to provide the definition.

Section B: Inputs & Implementation

Indicate the status of each of the project implementation activities below by using the dropdown menu provided and the status definitions below. Select "N/A" for any activity that does not apply to the

project.

Not Started	Planning	Implementation Started	Complete/Established	N/A
Have not yet been able to focus on project activity.	Started preparations and plans to begin implementing activity.	Initiated implementing this component but may not be fully developed or needs refinement.	Project activity is fully in place/completed and supporting project goals.	Does not apply to the project.

For each activity provide a narrative description of the progress, accomplishments, and/or challenges encountered in the reporting period. *Note: when all applicable components are "complete/established," document the quarter in which that occurred. For subsequent quarterly reports note the date of completion for the activity.*

1. **Staffing.** Hiring staff for the essential positions of the project.

Planning

Description: All staffing under the project is assigned to the Sheriff's Office. The IS Client Systems Specialist - Senior (1 FTE) was approved by the County. We are finalizing the job posting and recruitment is targeted to open by July 2024.

The Sheriff's Office received BSCC approval to modify the Lieutenant position to a sergeant (1 FTE) and an Administrative Assistant II (1 FTE). This would allow the Sheriff's Office to manage the grant more efficiently and still have sworn representation participating on the countywide decision-making body for the C3.ai project. Positions have been approved by the County. We are finalizing the job postings and recruitment is targeted to open by July 2024.

2. **Training.** Training provided to staff to support project goals.

Implementation Started

Description: The Sheriff's Office (SO) staff assigned to the ORT grant program have participated in all BSCC meetings and meets monthly to review project goals and assigned tasks. The SO staff are all trained and have strong understanding of the additional steps required under the grant, to include budget modification and approval gateways for procurement and how to complete quarterly invoices.

The SO continues to coordinate with Daly City Police Department to lead all sub-grantee agencies participating in the C3 AI project. We held sessions for each agency's project manager and designated subject matter experts to receive hands-on training on the C3 AI Law Enforcement software platform. Users were able to provide valuable feedback that will be incorporated into our development roadmap. Agencies schedule to go live with the solution in "Phase I" of our countywide rollout schedules are in the process of defining their agency-wide training plan.

Commented [KH1]: Updated at request of BSCC. The comment from Earl was deleted since it was attached to the old language.

3. **Data Collection/Evaluation.** Systematic, ongoing data collection for the local and statewide evaluation. This includes the Local Evaluation Plan (LEP) for the BSCC, the securing of evaluator(s) if applicable, and the data collection method(s) for the QPR and Local Evaluation Report (LER).

Planning

Description: The Sheriff's Office continues to work on securing an evaluator. After the first four potential vendors were not able to provide a proposal for our scope, we are now working with two additional vendors to receive proposals. BSCC approved extending our Local Evaluation Plan submission deadline to May 15, 2024, allowing us time to complete procurement and contracting for our evaluator and all necessary meetings with subgrantee agencies and Daly City Police Department's evaluator to align on the C3.ai project goals and metrics.

4. **Limit Racial Bias.** Policy(ies) in place and/or training(s) provided to ensure limiting of racial bias in implementation and facilitation of project activities.

Implementation Started

Description: The Sheriff's Office and all sub-grantee agencies in our grant have existing policies regarding limiting of racial bias. Employee training is completed as directed in each agency. The Sheriff's Office has discussed the potential need to update policies and training as new technologies are procured and implemented under the grant. If activities are identified, updated policies, agreements, and training will be scheduled throughout the grant term.

5. **Surveillance Technologies Compliance.** Policy(ies) in place and/or trainings provided to govern the use of those technologies, including, but not limited to: compliance with privacy laws and securing of any data collected or stored.

Planning

Description: The Sheriff's Office and all sub-grantee agencies in our grant have existing policies that govern the use of surveillance technologies, including, but not limited to: compliance with privacy laws and securing of any data collected or stored. Employee training is completed as directed in each agency. The Sheriff's Office has discussed the potential need to update policies and schedule several types of user training as new technologies are procured and implemented under the grant.

Specific to the C3.ai project, all involved agencies under the Sheriff's Office and Daly City's grants are reviewing a draft countywide memorandum of understanding that reflects data sharing, security, and compliance. The Sheriff's Office is the lead and will continue to circulate iterations until execution.

6. **Quality Assurance.** Methods in place to ensure the project is being implemented as intended.

Implementation Started

Description: Sheriff's Office staff responsible for managing the grant continue to meet monthly to review status on all projects under the grant. We correspond frequently on all steps to ensure compliance with procurement processes. Questions, requests for modifications and approvals, and requests for extensions are communicated to BSCC via our grant representative.

We continue to leverage the SMC Police Chief's and Sheriff's Association standing meetings to discuss executive-level agenda items related to countywide projects.

Specific to the C3.ai project, all subgrantee agencies in the County have identified project managers that participate in monthly meetings to track progress and complete activities. Agencies in the first wave of implementation meet more frequently.

SECTION C: Goals and Objectives

Enter the goals and objectives identified in the Project Work Plan (see grant contract) and are part of the Local Evaluation Plan. Describe the progress toward the goals and objectives the project was intended to address. Provide updates for each goal ***and*** its objectives related to the reporting period. Use as much space as needed within each of the tables to provide details about progress (the reporting boxes will expand as necessary).

Goal #1 Standardize all County LEAs on a single investigative platform.
Objectives: A. Successfully implement Countywide C3.ai LE platform for all participating agencies. B. Successfully implement the C3.ai Ex Machina reporting solution for all County LEAs.

1.a. Progress. Describe progress toward this goal ***and*** its objectives during this reporting period.

Description: A. The Sheriff's Office, via the San Mateo County Board of Supervisors fully executed the countywide expansion contract with C3.ai on January 23, 2024. Concurrently, we kicked off the countywide expansion project with all subgrantee agencies. Four of the police departments (Foster

Commented [EM2]: Please consider changing status to "Implementation Started" since San Mateo SO and all sub-grantee agencies have Racial Bias policies and training in place, but said policies and training, perhaps not fully developed, will be refined as needed with introduction of new technologies.

"Planning" would imply that no policies exist, and therefore, have not been enacted nor any corresponding trainings have been delivered to or completed by employees.

If "Planning" best reflects the status of this item, please provide justification for its usage.

Commented [KH3R3]: Updated to "Implementation Started"

City and Redwood City from the Sheriff's Office grant, and San Mateo and San Bruno from the Daly City Police Department grant) are in the first phase of agencies to work on their implementation. Their target go live is June 2024. All other subgrantee agencies have participated in onboarding training and monthly meetings to stay informed of progress and participate in discussions about developing areas of the application.

B. The Sheriff's Office received access to the C3.ai Ex Machina reporting solution on March 4th, 2024. We started testing the module with standardized reports to verify database connections and complete administrator training on March 27th, 2024. As we onboard our evaluator and identify more detailed performance metrics, the Sheriff's Office will work with C3.ai to develop the reports in Ex Machina.

1.b. Challenges. Describe any challenges encountered while working toward this goal ***and*** its objectives, as well as any efforts to address the challenges.

	Challenges:	***How Addressed:***
i.	Collaboration with Daly City Police Department for the C3.ai LE and Ex Machina scope that aligns with both of our grants requires increased level of communication and coordination.	Daly City Police Department onboarded their grant evaluator and defined metrics for baseline data collection. The Sheriff's Office, still searching for an evaluator, is following the Daly City model to maintain consistency. As the Sheriff's Office onboards the evaluator, we will need to establish formal coordination and possibly modify our data collection practices and reporting. Any updates to our processes will be reported in the Sheriff's Office Local Evaluation Plan and subsequent quarterly reports.
ii.	Coordinating city and county attorney reviews of draft MOU language has been challenging to consolidate and recirculate.	Some agency legal teams can take several weeks to review a draft MOU or document required for our countywide collaboration. The Sheriff's Office is taking lead to collect all the feedback and update the document to a single next iteration for circulation. The Sheriff's Office will facilitate circulation of a single version for all counsels to review and contribute. This will hopefully expedite the review process as we target final language to which all agencies can unanimously agree.
iii.	Describe a challenge here.	Describe how addressed here.

Goal #2 Implement the regional data sharing platforms for the Northern District of California.
Objectives: A. Successfully implement the Organized Retail Crime Incident and Threat Reporting Exchange (ORC ITREx). B. Successfully implement the Regional Automated License Plate Reader (ALPR) platform.

2.a. Progress. Describe progress toward this goal ***and*** its objectives during this reporting period.

Description: NCRIC continues efforts in the planning stage for the expansion of the existing ITREx platform to include organized retail theft. The Director of Private Sector engagement is onboard and continuing efforts to gather requirements for an eventual RFP.

Reported in the Quarter 1 quarterly progress report, NCRIC was able to achieve Objective B via an alternative strategy, leveraging their existing platform. Therefore, we designate Objective B as complete.

2.b. Challenges. Describe any challenges encountered while working toward this goal ***and*** its

Commented [EM4]: Please include Objective B as stated in San Mateo SO's Project Work Plan

Commented [KH5R5]: With input from RTI, they recommend we ID objective B as complete. For the following QPRs, is there standard language we can denote to reflect this?

Commented [KH6R5]:

objectives, as well as any efforts to address the challenges.

	Challenges:	***How Addressed:***
i.	Describe a challenge here.	Describe how addressed here.
ii.	Describe a challenge here.	Describe how addressed here.
iii.	Describe a challenge here.	Describe how addressed here.

Goal #3 Reduce occurrences of retail theft, vehicle / accessory theft, and cargo theft in San Mateo County and the Northern District of California.
Objectives: Successful utilization by all participating agencies of the following systems: ORC ITREx, Countywide C3.ai LE, all Digital Forensics and Investigative Solutions for all participating agencies with all source system integrations in place.

3.a. Progress. Describe progress toward this goal ***and*** its objectives during this reporting period.

Description: The Sheriff's Office and NCRIC continue to make progress on all procurements of Services and Supplies identified in the grant. The Countywide C3.ai LE agreement was executed by the Board of Supervisors on January 23, 2024. Several items in the grant were approved for budget modifications by BSCC on February 22nd, 2024, to include LeadsOnline, CDW-G (for AWS Gov Cloud services), Babel Street, Starchase, and our modified Staffing strategy. With those approvals, the Sheriff's Office will continue to follow County policies to complete procurement and recruitments.

3.b. Challenges. Describe any challenges encountered while working toward this goal ***and*** its objectives, as well as any efforts to address the challenges.

	Challenges:	***How Addressed:***
i.	Updated county procurement policies and practices now require additional time and effort to complete execution of agreements.	The Sheriff's Office continues to work through procurement activities for all Services and Supplies. Several updated quotes have been garnered and budget modifications have been approved. We will continue to execute each agreement as they are ready for review and approval by BSCC and the County.
ii.	Describe a challenge here.	Describe how addressed here.
iii.	Describe a challenge here.	Describe how addressed here.

Goal #4 N/A
Objectives: Input the associated objectives here.

4.a. Progress. Describe progress toward this goal ***and*** its objectives during this reporting period.

Description: Use this text box to describe progress toward the goal and its objectives.

4.b. Challenges. Describe any challenges encountered while working toward this goal ***and*** its objectives, as well as any efforts to address the challenges.

	Challenges:	***How Addressed:***
i.	Describe a challenge here.	Describe how addressed here.
ii.	Describe a challenge here.	Describe how addressed here.
iii.	Describe a challenge here.	Describe how addressed here.

Goal #5 N/A
Objectives: Input the associated objectives here.

5.a. Progress. Describe progress toward this goal ***and*** its objectives during this reporting period.

Description: Use this text box to describe progress toward the goal and its objectives.

5.b. Challenges. Describe any challenges encountered while working toward this goal ***and*** its objectives, as well as any efforts to address the challenges.

	Challenges:	***How Addressed:***
i.	Describe a challenge here.	Describe how addressed here.
ii.	Describe a challenge here.	Describe how addressed here.
iii.	Describe a challenge here.	Describe how addressed here.

SECTION D: Activities

Formal Agreements or Partnerships

In the table below, each row lists pre-identified agencies with which a NEW formal operational agreement(s) or memorandum of understanding(s) (MOU(s)) may have been established during the reporting period. For each row, use the respective columns to report the number of new agreement(s) or MOU(s) established due to grant funds (column two), the number of new agreement(s) or MOU(s) established due to other fund sources (column three) and a description of the agreement(s) or MOU(s) (column three). If no agreements or MOUs were established for the corresponding item, please input a quantity of zero (0).

Agreements or Partnerships	Quantity utilizing *Grant Funds*	Quantity utilizing *Other Funds*	Description
1. Academic institution	0	0	None.
2. Community-based organization	0	0	None.
3. County-level agency	0	0	None.
4. District Attorney's Office	0	0	None.
5. Other law enforcement agency	0	0	None.
6. Retailer/business	0	**0**	None.
7. Other	0	0	None.

Activities to Address ORT, MVT, MVAT, or Cargo Theft

In the table below, each row lists pre-defined general categories of operations or activities with which the project may have engaged in or conducted to address ORT, MVT/MVAT, or cargo theft. For each general category, use the respective columns to report the frequency (use the options within the dropdown menu) in which these operations or activities were engaged in or conducted during the reporting period with grant funds (column two) and with other funds (columns three). Use the fourth column to provide a description of the activities.

Activity	Frequency utilizing *Grant Funds*	Frequency utilizing *Other Funds*	Description
8. Task force operations	N/A	N/A	**None.**
9. MVT/MVAT operations	N/A	N/A	**None.**
10. RTIC/RTCC activities	N/A	N/A	**None.**
11. Retail/Business/Community Relations	N/A	More than once a week, but not daily	Sheriff's Office detectives had 7 meetings with retailers

Commented [EM7]: Please verify if Burlingame PD was not a partner before San Mateo SO was awarded grant funds; BPD is listed as a sub-grantee in SM SO's grant proposal.

If so please change value to 0.

However, if formal operational agreements or MOUs were established with the two retailers, change quantity to 2 and provide a brief description of the agreement(s)/partnership(s)

Commented [EM8R8]: Additionally, this description may be added to "Project Highlights" section below.

Commented [KH9R8]: Pending reply from Burlingame PD.

Commented [KH10R8]:

Commented [EM11R8]: Confirmed by Kim via email 6/6/24:
"Burlingame replied that the two FTEs were implemented prior to the reporting period, before the grant. So the table for MOU agreements can be updated to zero."

			during the reporting period.
12. Other	N/A	Daily	Burlingame PD reports walking beats in downtown areas.

MVT – motor vehicle theft. MVAT – motor vehicle accessory theft. RTIC – real-time information center. RTCC – real-time crime center.

Equipment and Technology in Operation

In the table below, each row lists pre-identified equipment or technology that may have been put into operation during the reporting period. Do not include equipment and technology that was purchased this quarter but was not put into operation. For each item, use the respective columns to report the quantity that was put into operation during the reporting period with grant funds (column two) and with other funds (column three). Use column four to provide a description of the item(s).

Equipment/Technology	Quantity utilizing *Grant Funds*	Quantity utilizing *Other Funds*	Description
13. Automated license plate readers	0	**0**	**None.**
14. Bait/decoy cars	0	3	Redwood City PD reports deploying 3 decoy cars near Jewish facilities.
15. Drones	0	**0**	**None.**
16. Etching devices	0	**0**	**None.**
17. Security cameras	0	**0**	**None.**
18. Software/database	2	**0**	C3.ai LE and C3.ai's Ex Machina solutions have been enabled in test environments as the first phase of agencies work on their implementations.
19. Tracking devices	0	2	Redwood City PD reports implementing 2 vehicle trackers for felony investigations.
20. Other	0	**0**	**None.**

SECTION E: Metrics

Metrics for ORT

For questions 1 through 4, report the requested metrics for the reporting period. Refer to the *Data Reporting Guide* for definitions of each metric. See Section A for the applicable definition of ORT. For items 3 and 4, provide the quantity during the reporting period with grant funds (column two) and with other funds (column three).

Metric	Quantity	
1. Number of incidents reported related to ORT	53	
2. Number of arrests made related to ORT	3	
Metric	**Quantity utilizing Grant Funds**	**Quantity utilizing Other Funds**
3. Number of FTE staff positions assigned to ORT prevention activities	0	0
4. Number of cases referred to the DA for prosecution related to ORT	0	68

Commented [EM12]: Please provide a best estimate of FTE tied to arrests, case referrals, and/or other ORT prevention activities done by employees (excluding patrol officers).

Please refer to most updated Data Reporting Guide under "Grantee Resources" tab for guidance: https://www.bscc.ca.gov/organized-retail-theft-grant-program/

Commented [KH13R13]: Hi Earl – we do not have any designated ORT positions staffed outside of patrol. Are you wanting us to estimate a portion of FTE time for detectives/investigations even though they are generalized assignments?

Or, assuming Burlingame's two patrol positions are assigned to the retailers, would you want us to count those as FTE?

Commented [EM14R13]: Response to Kim 6/6/24: "you may exclude FTE time for detectives/investigations that are part of generalized assignments"

Commented [EM15R13]: Awaiting Kim to provide FTE percentages for Burlingame PD retail patrol as those duties are dedicated to ORT prevention

Metrics for MVT/MVAT

For questions 5 through 8, report the requested metrics for the reporting period. Refer to the *Data Reporting Guide* for definitions of each metric. See Section A for the applicable definition of MVT/MVAT. For items 7 and 8, provide the quantity during the reporting period with grant funds (column two) and with other funds (column three).

Metric	Quantity	
5. Number of incidents reported related to MVT/MVAT	420	
6. Number of arrests made related to MVT/MVAT	71	
Metric	**Quantity utilizing Grant Funds**	**Quantity utilizing Other Funds**
7. Number of FTE staff positions assigned to MVT/MVAT prevention activities	0	11
8. Number of cases referred to the DA for prosecution related to MVT/MVAT	0	40

Metrics for Cargo Theft

For questions 9 through 12, report the requested metrics for the reporting period. Refer to the *Data Reporting Guide* for definitions of each metric. See Section A for the applicable definition of cargo theft. For items 11 and 12, provide the quantity during the reporting period with grant funds (column two) and with other funds (column three).

Metric	Quantity	
9. Number of incidents reported related to cargo theft	213	
10. Number of arrests made related to cargo theft	10	
Metric	**Quantity utilizing Grant Funds**	**Quantity utilizing Other Funds**
11. Number of FTE staff positions assigned to cargo theft prevention activities	0	4
12. Number of cases referred to the DA for prosecution related to cargo theft	0	10

SECTION F: Challenges and Highlights

1. **Challenges:** Describe the challenges encountered during the reporting period, as well any as efforts to overcome the challenges.
   Description: Staffing challenges in the Sheriff's Office continue to impact more effective pursuit of property crimes. The agency continues to recruit and utilize overtime. Other sub-grantee agencies have reported similar challenges.

   The Sheriff's Office and sub-grantee agencies are consistently running the same data extracts from respective databases for grant reporting, but some inconsistencies still exist in how we may identify ORT cases. Organized retail theft incidents reported above reflect the PC 490.4 cases specifically. All other theft-related cases could start with a different offense code and only through reviewing case narratives or revisiting cases later in time may we confirm they are ORT-related. We hope to work with our evaluator to confirm a consistent method to collect the data, train staff as each agency onboards to the C3.ai LE platform and updated data collection methods to hopefully yield more consistent data, and eventually leverage C3.ai Ex Machina to pull the data using a single automated format.

2. **Project Highlights.** Describe any highlights and/or accomplishments that occurred during the current reporting period.

Description: The Sheriff's Office and all sub-grantee agencies, along with Daly City Police Department and their sub-grantee agencies, completed a successful kick-off of the countywide expansion of the C3.ai LE software project. Every agency identified a project manager (PM) to participate in monthly meetings. The group is high collaborative and engaged. PMs have completed onboarding training to the application, identified key stakeholders in their agencies, unanimously agreed on a three-phase agency onboarding schedule, and approved to name our county project "SHERLOCK." Project Sherlock is on schedule for the first four police departments to go live. Agencies are dividing tasks to conduct research on potential third-party source system integrations and collect feedback on future feature requests. Redwood City PD, as one of the first four agencies working on the implementation, reported working with C3.ai has been extremely smooth, noting efficient communication and activities between C3's technical team and city information technology staff.

In February of 2024, Sheriff's Office detectives attended the California Robbery Investigators Association Conference. While attending the conference, detectives networked with members of the California Highway Patrol Organized Retail Theft Task Force and have since begun working together more on ORT cases and future operations are being considered.

SECTION G: Additional Narrative

1. **Additional Narrative.** Please provide any additional information necessary to detail the project's progress during the reporting period. Any additional information that is project specific, which may help inform project progress, may be included here. If providing additional details in reference to a section within this report, please cite relevant sections.

   Description: Use this text box to provide the description.
