RE: Summary of Quarterly Audit of SMPD 'End-User' ALPR Data for Q3, 2020

Introduction

Per SMPD Standard Operating Procedure 205, our Department conducts quarterly audits of our 'End-User' data to ensure our employees are reviewing data in a manner consistent with policy and procedure. The data reviewed is generated and provided by the Norther California Regional Intelligence Center (NCRIC), as they are the keeper of this data. The results of these audits are summarized and presented to the Support Services Captain for review and later for retention by the Support Services Division.

Quarter 3, 2020 (July, August, September)

Our employees conducted 123 searches of ALPR historical data through the NCRIC platform. A number of these searches were conducted as tests to check that the system was functioning correctly. All searches were determined to list the required criteria as required by our policy and procedure. The top two reasons for searches were "Stolen or Wanted" or "Criminal or Arrest."

Audit Focus	Q3/2020	Quarterly Average
Number of searches	123	70.75
Number of searches with required criteria (as %)	100%	99%
Case numbers listed	112	58.25
Non-case numbers listed	11	12.5
(Reasons for search)	N/A	N/A
Amber/Silver Alert	0	2
Criminal or Arrest	16	53
Special Event	0	0.25
Stolen or Wanted	100	6.5
Violent Crime	7	8.25

Analysis and Conclusion

Our Department 'End-User' activity during the time period was consistent with Department policy and procedure. No additional efforts are recommended.
