

Automatic license plate readers (ALPRs) enhance public safety, criminal investigations and officer safety by allowing officers to retroactively search ALPR generated license plate data to solve crimes after they've occurred. Additionally, The Creedmoor Police Department utilizes real time alerting of hotlist vehicles, which are stolen vehicles, vehicles owned by persons of interest in criminal investigations, and vehicles entered into the National Crime Information Center (NCIC) database. In an effort to ensure proper usage and guardrails are in place, they have made the below policies and usage statistics available to the public.

It is the policy of the Creedmoor Police Department that all officers abide by Departmental Policy and all applicable State Laws when using ALPR technology and/or accessing ALPR generated license plate data produced by an ALPR system.

Community Impact

Data & Usage Summary

30 days

The number of days data is retained.

30 days

10

Number of LPR and other cameras.

10

Vehicles detected in the last 30 days

Number of unique plate reads over the last 30 days.

94,621

Number of Searches

Total user search sessions over the last 30 days.

38

Hotlists Alerted On

National and statewide hotlist sources.

NCIC, NCMEC Amber Alert

Number of Hotlist Hits

Total hotlist hits over the last 30 days.

116

Policy & Trust

What's Detected

License Plates of Vehicles Traveling into Creedmoor City Limits

What's Not Detected

The identify, gender, or race of individuals, pictures of the driver or occupants of a vehicle, personally identifiable information (PII) like names and addresses of vehicle owners, and/or the speed of vehicles.

Acceptable Use Policy

Pursuant to North Carolina law, ALPR data may only be used for law enforcement purposes, which includes actions related to criminal investigations, arrests, prosecutions, post-conviction confinement, or supervision, apprehending an individual with an outstanding felony warrant, locating a missing or endangered person, and/or locating a lost or stolen vehicle. Data is used for law enforcement purposes only and is owned by Creedmoor Police Department and is never sold to 3rd parties.

Prohibited Uses

Immigration enforcement, traffic enforcement, harassment or intimidation, usage based solely on a protected class (i.e. race, sex, religion), personal use.

Access Policy

All system access requires a valid reason and is stored indefinitely.

Hotlist Policy

Hotlist hits are required to be human verified prior to action.

Myth vs. Fact

Myth

Flock has been hacked.

Fact

Flock's cloud environment has never been breached. Flock invests in a strong security posture, including adhering to NDAA, SOC2 (Type II), ISO 27001, ISO 27018 FedRAMP 20x, and Higher Education Community Vendor Assessment Tool (HECVAT) compliance. Additional security precautions include Role-Based Access Controls, data encrypted at-rest and in transit, required Multi-Factor Authentication, and regular penetration testing.

Myth

Flock sells and/or shares customer data.

Fact

Your community owns 100% of your data and it will never be sold. Only your agency decides who to share your data with, not Flock. Flock Safety does not publicly release agency search data. Flock does not operate or support any public-facing searchable database of law enforcement lookups, and we do not provide license plate search histories to websites or third parties without the agency's knowledge and authorization. Other agencies who you share footage with have been responding to FOIA requests and sharing this search data.

Myth

My data is fed into a national database.

Myth

Flock cameras use facial recognition.

Fact

Each agency controls access to its own data. Agencies may choose to share information through a broader network, but nothing is shared automatically. Participation is opt-in, governed by defined agreements, and limited to lawful investigative purposes.

Fact

Flock cameras do not use facial recognition technology. Searches are based on vehicle characteristics, and not identity. Flock cannot recognize, identify, or track individuals. It is purpose built for specific public safety investigations, not to monitor people.
