# Surveillance Finds a Way

JASON KOEBLER • SEP 29, 2026 AT 10:05 AM

CEO who wants to add facial recognition to Flock cameras says it's "the way the world will have to be."

*A thing I've been saying over and over is that surveillance companies can't be trusted to regulate themselves or to make privacy decisions themselves, because one company's red line is another company's business opportunity. Today we're investigating a company that saw Flock was not offering facial recognition and saw a challenge.*

*Also: Some dudes are letting ChatGPT drive a car in a parking lot in San Francisco, a data center company promises to cut people big checks if their data center gets approved, and the Muse backlash has begun. # Surveillance Company Wants to Add Facial Recognition to Flock Cameras

As Flock continues to be the center of a nationwide conversation about automatic license plate reading cameras, the company has said that it doesn't, and won't, do facial recognition: "We will not add facial recognition to our
