DALY CITY
Budget Modification

Transfer

Moving the following to create new line items for Daly City PD:

- ***Camera trailer***
    - Move $56,030 from the Salaries & Benefits category (Community Service Officer) to Equipment/Fixed Assets line for a camera trailer.
    - Move $43,970 from the Salaries & Benefits category (ORT Task Force deployments, training, investigations, and other related activities) to the Equipment/Fixed Assets category for a camera trailer.
- ***Camera integration devices***
    - Move $10,792 from the Salaries & Benefits category (ORT Task Force deployments, training, investigations, and other related activities) to the Equipment/Fixed Assets category for camera integration devices.
    - Move $19,208 from the Salaries & Benefits category (MVT/MVAT details) to the Equipment/Fixed Assets category for camera integration devices.

Narrative

- We realized savings of $56,030 in salaries and benefits for the **Community Service Officer** position as the actual expenses for Years 1 through 3 were below the budgeted amount. We would like to reallocate the savings to the Equipment/Fixed Assets category to purchase a **camera trailer** to support efforts to address ORT and MVT/MVAT.
- We are requesting to redirect a portion of the remaining funds earmarked for the ORT Task Force and MVT/MVAT details toward a camera trailer and camera integration devices.
    - We would like to reallocate $43,970 from the overtime and straight-time pay for **ORT Task Force** deployments, training, investigations, and other related activities line item to the Equipment/Fixed Assets budget for the **camera trailer**.
    - We would like to reallocate $10,792 from the overtime and straight-time pay for **ORT Task Force** deployments, training, investigations, and other related activities line item to the Equipment/Fixed Assets budget to fund a rebate program for **camera integration devices**, which would allow participating businesses to connect their existing security cameras directly to our Real-Time Intelligence Center, giving the department access to live feeds during emergencies.
    - We would like to reallocate $19,208 from the overtime and straight-time pay for **MVT/MVAT** details, training, investigations, and other related activities line item to the Equipment/Fixed Assets budget for the **camera integration devices**.
